

OUR LINES

Main colours (to be) carried at TPRC 2026

1

FROSTED LINE

This line is mink and silvermane. Carries multiple coat types such as possibilities of standard and silvermane; rex will be select bred out. This line is all dumbo.

BLACK LICORICE LINE

This line is black and silvermane. Carries multiple coat types such as possibilities of standard, rex, velveteen and silvermane. This line will be select bred back to all dumbo again.

2

3

SUGARED LINE

This line is Siamese and silvermane. Carries multiple coat types such as possibilities of standard, rex and silvermane. This line is all dumbo.

BLUE RAZZ LINE

This line is Russian Blue. Carries standard or occasionally rex coat types. This line is all dumbo.

4A

4B

AMERICAN BLUES

May or may not happen this year. I am aiming to add and work on some American Blues but as to not overwhelm myself we will start with the RB.

BROWN SUGAR LINE

This is a test line. DWS & Agouti. I will attempt up to two pairings to determine whether I want to work on select breeding a safe DWS line; or if megacolon is present within and the line should be ended instead.
