

Integrated Realty Resources (IRR)

NH Job Corps was glad to have Noah Siebert, Chuck Thibedeau and Kim Calvi to our center!

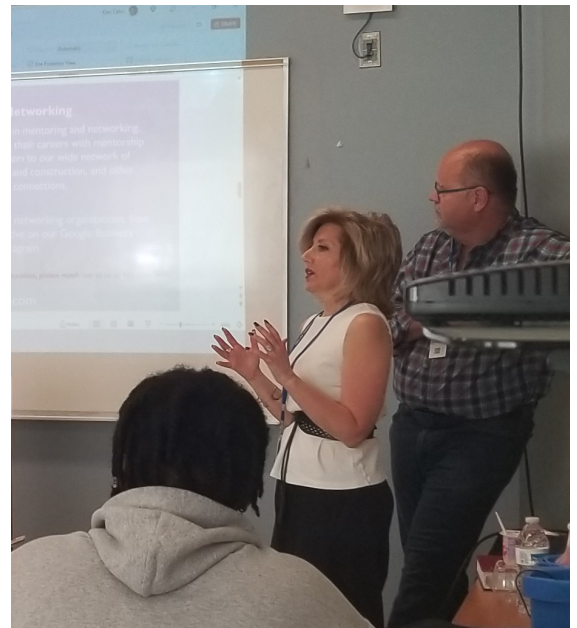

2017 - 2022

CELEBRATING FIVE YEARS OF
INCREDIBLE GROWTH

Integrated Realty Resources was welcomed by the Facilities Maintenance classroom on Wednesday morning on June 15h. More than just a great employer they are a mentor looking to help you get what you want out of your career. Talk to your CTS about connecting you to IRR today!

Looking for a hands-on job that is different every day and puts your hard-earned skills to work? Look no further than IRR.

They are one-stop shopping for any building project. They work with contractors across the state to address any and all needs of property owners. One day you may be changing a bulb or a front door, next day you're on a roof and the next day knees deep in a watermain break. We enjoyed discussing the importance of the Trades, overcoming our fear of heights, marketing a company, and how to start a career off right.

They are looking for technicians to join their team!

Thank you to the IRR team for the presentation, the opportunities and the gifts!
