

## Conference Session

April 25, 2026

## Science & Sustainability

11:30 AM - 1:30 PM

Where Science Meets Sustainability for Lasting Impact

### Session Mentor

Prof Ashish Mathur

### Session Chair

Dr Shikha Wadhwa

### Session Co-Chair

Dr Pragya Chaube

## ABOUT THE SESSION

This session explores how scientific inquiry, technological innovation, and policy integration can drive environmentally responsible growth and long-term peace. The focus will be on research and applied models that link scientific advancement with ecological balance, climate resilience, renewable transitions, sustainable infrastructure, and evidence-based governance.

## WHO SHOULD JOIN

- Faculty members and researchers
- PhD scholars and postgraduate students
- Policy researchers and government representatives
- Industry professionals
- Environmental NGOs and civil society members
- Startups and innovators

## CORE THEMES

- Climate adaptation and mitigation science
- Sustainable materials and green technologies
- Renewable energy systems
- Water, food and energy security
- Circular economy models
- Science-driven public policy
- Innovation ecosystems for sustainable development

## Publication opportunity

Selected papers presented in the session may be considered for publication in conference proceedings / journal (*Journal of Sustainable Peace and Growth*) subject to peer review and editorial guidelines

## ABSTRACT SUBMISSION DEADLINE

**April 10, 2026**
