

## Western Laboratories, Inc.

Western Laboratories is in the process of making a major investment into Real Time DNA testing of viruses, bacteria, fungi and some nematode species, such as potato cyst. Real Time means we can quantitatively and qualitatively determine the amount and subspecies of each disease. The DNA testing will compliment the work being done by our universities. For **RUSH** on nematode testing, add \$15.00 per sample.

TEST	NEMATODE ANALYSIS FEE SCHEDULE	PRICE
50	<i>Complete Nematode Test Root knot plus cyst nematode (eggs and larvae)</i>	<b>\$70.00</b>
51	<i>Root knot nematode, including identification of species</i>	<b>\$54.00</b>
52	<i>Sugar beet cyst nematode – eggs and larvae counts</i>	<b>\$41.00</b>
53	<i>Verticillium / Root lesion nematode complex</i>	<b>\$159.00</b>
67	<i>Wireworm Test</i>	<b>\$44.00</b>
