

Miles A Reid * 772-323-4499 * miles@wavystills.com * www.wavystills.com

As a creative visionary and recent graduate with a Bachelor's degree in **Graphic Design** from Full Sail University, I am deeply passionate about design and dedicated to achieving excellence in every project I undertake. My journey into the world of graphic design began with the founding of WavyStills LLC in 2022, where I've left a digital footprint showcasing a dynamic portfolio of **photography** and **graphic design** at www.wavystills.com.

Bringing a visionary perspective to my work, I infuse a robust design aesthetic that goes beyond pixels, evoking emotions and weaving stories into visual art. My commitment to artistic expression extends to my volunteer work, including over 200 hours at the YMCA of the Treasure Coast and 100 hours supporting the Stuart Air Show. These experiences have not only honed my design skills but also showcased my collaborative dynamo nature, thriving in team environments and fostering innovation through excellent collaboration skills.

I pride myself on being a communication alchemist, transforming complexity into simplicity and sculpting intricate information into easily digestible visual masterpieces. With a knack for multitasking, I excel at juggling multiple projects, effortlessly balancing creativity and precision. Leading with initiative, I embrace process innovation and deliver precise, problem-solving solutions.

A presentation virtuoso, I seamlessly blend art and information, crafting captivating presentations from diagrams to client pitches. My effective communication skills resonate timely and appropriately, fostering internal synergy within teams. Known as a diversity whisperer, I harmonize with diverse personalities and vendors, turning collaboration into an art form.

Possessing the unique ability to simplify complexity, I transform intricate corporate communication materials into visually simplified representations of complex information. My level-headed, optimistic, and positive temperament resonates well in high-pressure situations, fostering a conducive and uplifting work environment.

In summary, I am not just a **graphic designer**; I am a creative force committed to turning ideas into visual magic, collaborating seamlessly with teams, and simplifying complexity to create compelling visual narratives. My portfolio at www.wavystills.com is a testament to my diverse skills and passion for delivering design excellence.
