

A players' handicap placement should not be confused with a ball in hand a player gets when their opponent fouls. These are two separate issues. A ball in hand from an opponent's foul does not affect the handicap

Handicap placements:

0 = no placement per game.

1 = one placement per game.

2 = two placements per game.

3 = three placements per game.

4 = four placements per game.

5 = five placements per game. (Only if a four plays a minus one)

6 = six placements per game. (Only if a four plays a minus two)
