2023 Cutting Edge in Trauma

Purpose Statement: The purpose of the full-day conference is to provide emergency response personnel and trauma care providers the opportunity to identify new practices and review current approaches in the care of the trauma patient. The Southeast Regional Trauma Advisory Council (SERTAC) promotes optimal trauma care across local, regional, and state boundaries through healthcare professionals who strive to provide quality care.

Conference Objectives: At the end of the conference, attendees should be able to better understand Trauma and Preparedness programs; identify key variables related to their practice; apply the information gained to their practice and improve patient care.

Target Audience: The intended audience includes Trauma Care Providers, Emergency Response Personnel, personnel involved in the continuum of care of trauma patients, and other persons interested in trauma or emergency preparedness.

Continuing Education: This conference will offer 6.75 nursing contact hours. To receive the contact hours, participants must attend the entire program and complete evaluation on the overall conference.

Froedtert & Medical College of Wisconsin is approved with distinction as a provider of nursing continuing professional development by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Froedtert & the Medical College of Wisconsin is the approved provider of nursing contact hours for this activity in a joint provider agreement with SERTAC.

Disclosures: It is the policy of the SERTAC Conference staff and Froedtert Hospital to ensure balance, independence, objectivity, and scientific rigor in all its educational activities. All persons in a position to control the content of an educational activity are required to disclose any financial relationships with commercial interests occurring over the preceding 12 months. SERTAC Conference staff then determines whether the disclosed relationships are relevant to the content of the educational activity, and appropriate measures are taken to resolve any resulting conflicts of interest before the start of the activity.

This program has received commercial support and sponsorship in part by several organizations. Any additional funding sources will be disclosed at the program. We thank these sponsors for their support.
