Directions: Using a non-metallic container, mix the clay powder with apple cider vinegar or water into a smooth paste. Add more clay or liquid as needed. Apply a thin layer to the face or other body parts and allow the mask to dry for 15 to 20 minutes for normal skin (5 to 10 minutes for sensitive skin). A pulling and tightening sensation is normal. Wash the dried layer of clay off with warm water only. Slight redness of the skin may temporarily occur.
