

Civil Engineer - Dam Engineering

Connex Personnel is currently recruiting a Civil Engineer - Dam Engineering to join its Client's Engineering Services team. The individuals will support the execution of projects throughout Newfoundland & Labrador.

Working within the Dam Safety Engineering group to help manage the Corporate Dam Safety Program. The work for this position will include providing technical direction to dam safety inspectors and maintenance personnel, completing dam safety inspections, updating surveillance and maintenance standards, completing cost estimates, developing technical specifications and providing civil engineering support as required. Additional work will include the preparation of work orders, material and equipment orders and contract documents. The successful candidate will also be responsible for the development of Engineering Standards and performing construction management duties for assigned projects. Experience in hydrotechnical and/or geotechnical engineering would be an asset as is experience in civil design and construction.

Education and Experience Required:

- Experience in Dam Safety
- Experience in geotechnical and/or hydrotechnical engineering
- Willingness to travel approximately 7-10 weeks a year
- Proven and demonstrated communication skills
- Ability to thrive as a participant within a multi-discipline team of both internal and external resources
- Relevant experience in design, implementation and troubleshooting
- Experience in developing and managing engineering consultant contracts
- Experience in developing and managing construction contracts
- Experience in engineering project estimates
- Graduation from a recognized university with a Bachelor of Civil Engineering Degree with a minimum of 4 years' experience since graduation
- Membership in the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) association

Location: Company's head office in St. John's, NL. Travel to various work sites may be periodically required.

Anticipated Start Date: April 27, 2026

Anticipated End Date: December 18, 2026

Hours: Normal working hours for this work scope are 37.5 hours per week.

Please submit your resume to hr@connexpersonnel.com
