

CMR – Ramea Terminal Station

Connex Personnel is recruiting for a Construction Management Representative (CMR) to oversee the Fencing Installation at the Ramea Terminal Station for one of our electrical utility clients.

The scope of construction generally includes The scope of work at the Ramea Terminal Station is installation of a new section of chain link fencing and associated grounding. The work includes excavation for fence posts, installation of fencing, and grounding.

The estimated duration is approximately 2 weeks at 70 hrs/week for a total of 140 hours. Work schedule is 10 hrs/day. The estimated end on 7 November 2025.

CMR Scope of Services

The CMR's scope of services shall be as follows, but not limited to:

- Daily communication to provide updates on progression of work and any issues of concern.
- Be on site at all times while Contractor is working on-site.
- Monitor and work with Contractor and internal forces to ensure all work is completed in a safe manner and in compliance with the project HSE plan, applicable safety and environmental regulations, bylaws and safe work processes.
- Monitor work to ensure work is being performed in accordance with the contract documents.
- Verify Contractor's personnel have appropriate trade qualifications and safety certifications for the work they are performing
- Review JSAs and participate in Daily Toolbox Talks, Newfoundland and Labrador Hydro's SWOP program, etc.
- Assist with coordination of work between NL Hydro resources and Contractor as needed.
- Complete and submit Daily Reports to NL Hydro's PM. These reports will outline items such as number of personnel on site (Contractor vs staff), hours worked, activities completed, notable occurrences/issues, safety concerns, time and materials, equipment, etc.
- Facilitate/coordinate/deliver site orientations to Contractor's personnel. These orientations are required for all workers upon mobilization to site.

Experience

The ideal CMR candidate will have the following attributes:

- Education and training relevant to the work scope, and proficient in the use of computers & standard software.
- Knowledge and experience with fencing installation.
- Construction management background, experience working with NL Hydro, and experience on Terminal Station sites would be an asset.
