

Connex Personnel is currently recruiting for Construction Management Representative's (CMRs) for Protection & Control Work for WABTS 2024

CMRs are needed to support the P&C capital work scope in the Wabush TS, located in Wabush, NL. Work scope includes P&C modifications to existing P&C panels and equipment for the following projects;

- Replacement of B3SS1 Breaker
- Replacement of Existing T5
- T6 Protection Upgrade and B4T6 Replacement
- L5 Protection Upgrade and Breakers B3L5A and B4L5B Replacement

The work scope includes oversight and construction management of including all associated wiring, panel work, bench testing of relays and function testing

The outage schedule for these projects is as follows:

- B3SS1 **22-June to 08-July**
- T5 Replacement **07 August to 24 August**
- B4T6 **12 August to 24 August**
- B3L5A and B4L5B **07 August to 27 August**

Acting on behalf of the Engineering Services Dept., the CMRs are responsible for daily inspection reports, participation in daily tailboards, ensuring the contractor is following safety plans and work scopes, and ensuring the contractor is following proper work practices.

Project Location: Wabush Terminal Station – Wabush, NL

Anticipated Start Date: June 19, 2024.

Estimated duration/End date: All P&C Construction work is anticipated to be completed by August 27, 2024 or earlier

Required CMR background/experience:

For the P&C work, CMR(s) with Terminal Station experience with a background in protection and control upgrades including panel construction and commissioning experience is required.

Required Training:

- First Aid
- Powerline hazards
- WHMIS 2015 or equivalent.

CMR's will be required to use a personal cell phone with camera, laptop with MS Office and PDF applications and have all necessary PPE.

Please submit your resume to hr@connexpersonnel.com
