

Connex Personnel is currently seeking a Construction Management Representative (CMR) to support the execution of a project at the Happy Valley Goose Bay Gas Turbine Site.

Project Scope:

- Clean, remove, and dispose of three existing self dyked fuel storage tanks.
- Remove and dispose of twelve 300mm x 300 mm x 5,000mm creosoted timbers.

The three existing self dyked tanks will be drained of all recoverable fuel, disconnected from the existing fuel header system and will be placed along with the twelve creosoted timbers in a laydown area on site by NL Hydro prior to construction startup.

Requirements:

The CMR reports directly to the Contract Manager and is involved with monitoring the daily operation of contracted work and helps NL Hydro meet its legislated responsibilities as Principal Contractor. This includes the daily monitoring of job progress and documenting the activities of contractors when performing work on Hydro sites. The CMR performs monitoring and reporting activities to determine if work is being executed in compliance with applicable legislation and contract specifications, particularly as it pertains to the technical, safety, and environmental requirements. When issues are identified, the CMR immediately reports them to the Contract Manager.

As a CMR, the role involves conducting safety orientations, participating in tailboards, preparing daily reports, and ensuring that contractor is adhering to the contract documents. Also included is oversight of NL Hydro's safety plans, environmental plans, and oversight of contractor's quality plan.

Resources shall have good communications skills and be assertive with contractor as required. Resources shall discuss site issues with NL Hydro engineering or contract manager as required. Resources shall have experience with Electrical, Mechanical, Civil and Structural construction. Familiarity with NL Hydro processes and procedures is an asset.
