Company Bio

Founded in 1996 by David and Joanne Trumbauer, **B&W Machine Works** began as a small garage-based operation driven by a passion for machining, independence, and family values. Over the past two decades, the company has grown steadily, expanding capabilities to meet increasing demand and relocating to a modern facility in Perkasi in 2019. **B&W** is known for its adaptability, precision, and a problem-solving mindset that puts customer needs first. Whether crafting mission-critical aerospace components or high-volume parts for industrial automation, **B&W** delivers quality with every part—on time and to spec.

Core Competencies

- ★ High-Precision CNC Milling & Turning
- ★ Production Machining
- ★ Rapid Prototyping
- ★ Logistics & Kanban Order Management
- ★ ISO & AS9100 Quality Management (ProShop ERP)
- ★ Complete Quality Flowdown Through Accredited Finisher Network

Differentiators

- ✓ Over 25 years of precision machining expertise
- ✓ Advanced automation and palletized production for efficiency and consistency
- ✓ Rapid prototyping for fast, reliable product development
- ✓ Design for manufacturability support to optimize cost and performance
- ✓ Proven supply chain strategies with blanket orders and just-in-time delivery
- ✓ Integrated quality management with traceability, accuracy, and continuous improvement
- ✓ Deep-rooted culture of collaboration, problem-solving, and long-term customer partnerships
