# ABOUT MODERN STEAK

---

This is not the steakhouse of the past, it's what a Steakhouse can be - Modern Steak is a stunning space! Beautiful custom lights illuminate each table, while strategically placed tables allow patrons to catch a glimpse of the surroundings while personally hand-selected music creates a comfortable yet energetic vibe throughout the entire space.

Supporting Local Farm and Artisans - Modern Steaks commitment to quality is evident in the local Alberta Beef Menu. The result is perfectly marbled tender beef with a rich depth of flavour. Modern also features only the best local farm produce and artisan cheese makers located in Alberta and Western Canada.

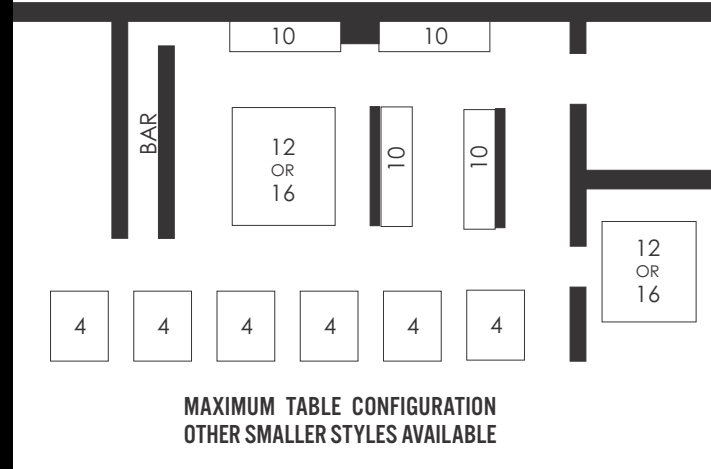

Our Goal - Under the leadership of Owner, Stephen Deere, Modern Steak offers a rotating menu that focuses on local, seasonal and organic ingredients to create inventive dishes that reflect evolving culinary trends, coupled with an experience and atmosphere you will not forget.

## **How Many Canapés per Guest Do You Need?**

When it comes to working out how many canapés per guest are needed, there is a general formula that can help you plan how many you need:

First of all you need to make the basic assumption that your guests will eat 4-6 pieces in the first hour and 2-4 pieces each hour after that.

From there, there are a few variables to keep in mind that can alter that basic formula:

Passing the canapés around less food will be consumed than if the food is unattended or at an action station.

If your event is happening during a normal meal time, then increase your canapés by 25-50%, this also works if your event is following a meal, as you can then decrease the number of canapés needed by 25-50%

We are more than happy to help make recommendations and work with you to set your optimal budget for your next event.
