THE INSTITUTE FOR CHILD WELFARE INNOVATION

Family first. Always. Because we know the cost of any other approach.

Why are we committed to finding family for all
children? Because...

over 400,000 children are living
in foster care in America.

about 20,000 children age out of
foster care each year. This means
they leave the system without ever
being reunited with family or being
adopted.

without family, children are more vulnerable
to trafficking, homelessness, and
incarceration.

every child has loving and safe
family. It is our job to find them.

Invite us into your community to share our
mission and our success. Plan this with
