My email address is info@Lakeshasmall.com

When should I prepare for college? Start planning now don't wait until high school. Plan ahead and take the right classes, get involved and stay organized.

What is an engineer? Engineers are professional problem-solvers. We use math and science along with critical thinking to benefit society.

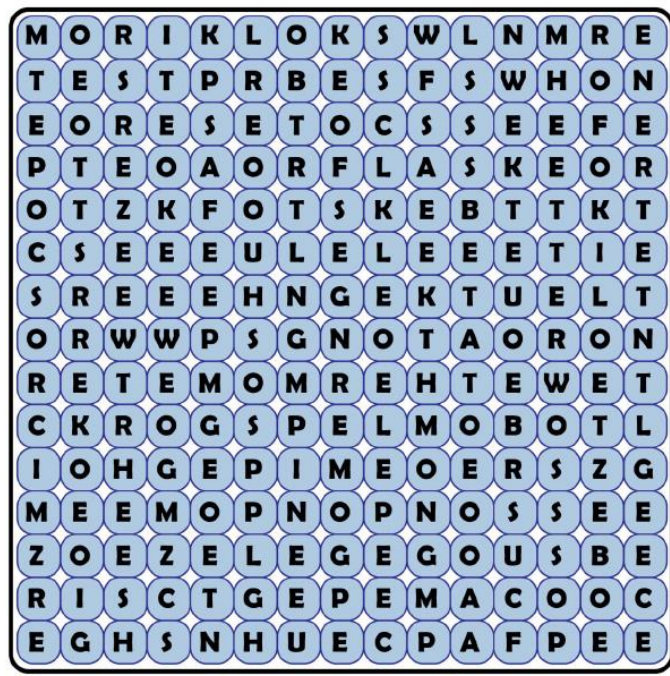

What is the average based salary of an entry level? \$82,362 which equals to \$47.96 per hr vs \$7.25 hr minimum wage

Name a skill you use that is not scientific. There are two communication and teamwork.

Do you have to be a good student to be an engineer? In school I didn't make all A's but I was determined to always strive to do my best, study, take notes and learn a new skill.

What was your journey to engineer? It started in middle school as I participated in the science fair was acknowledged for my project. Then I took advanced classes in high school to prepare for college.
