

Trainers

Health paperwork will only be accepted by email to PLR-Racingdocs.pennentertainment.com. Text, fax or other emails will not be excepted, no exceptions. Paperwork will be on file for the horse to be eligible to be drawn in. If paperwork is not on file, the horse will not be drawn in and if the horse does inadvertently get drawn in it will be scratched at scratch time while clearing the program. There will not be any horses drop shipped thru the gate and into the barn area without paperwork on file.

Stewards/Vet List

All horses scratched for sick, lame or injured will be put on the stewards/vet list for 7 days. The days will start the day following the scratch date. The eligible date to be draw in will be stated on the scratch notification slip. The horse will not be eligible to race until after that date. You will not need to produce a return slip from the vet to get back in the box.

Horses scratching from an outside post position for any reason other than sick, lame or injured may be assigned the outside post position in their subsequent start at Plainridge.
