

## Ukraine, Russia, the U.S. and the Threat of a Major War

Promoting Enduring Peace was founded in 1952 when Cold War hysteria was making war between the Soviet Union and the U.S. highly likely. Now in 2015 we see the hysteria mounting again, this time against Russia. Charges and counter-charges are flying over Ukraine. Nuclear armed Russia and the U.S. are going toe to toe.

We don't excuse for a moment what Putin's government is doing in Ukraine, but we know that the U.S. government with its long history of crimes and catastrophes in Iraq, Yemen, Palestine/Israel, etc. etc. should be the last to point the finger or to interfere. Billionaire oligarchs in Russia, Ukraine and the U.S. want war. We need peoples' solidarity instead.

### Stay Out of the Fighting in Ukraine

#### No U.S. Weapons to the Ukraine

The U.S. government, fresh from disastrous military interventions stretching from Afghanistan to Libya, is considering massive arming of the forces of the government of Ukraine. We say "No". We recognize that the Russian government has seized the Crimea and is sending military help to Ukrainian separatist forces. We also know that U.S. has made a relentless push to bring NATO right up to the Russia's western border and gave aid to the forces that overthrew the elected government of Ukraine.

We say "U.S. Stay Out of the Ukraine". Ukraine will not be helped if it is turned to rubble. Worse, a conflict in the Ukraine could end up with direct confrontation of armed forces of the U.S. and Russia, forces that possess nuclear weapons.

The U.S. is not under attack. Its government and military should stay out of the Ukraine conflict completely, no threats, no advisers, no weapons, and no soldiers.

PEP Resolution, Feb. 10, 2015

### From PEP President Hodel's

#### Statement to the CT Media

We are appalled that Connecticut members of the House of Representatives voted to ask President Obama to send military aid to Ukraine. Don't they know that U.S. government military interventions stretching from Afghanistan to Libya have been disastrous? We say "No". We recognize that the Russian government has seized the Crimea and is sending military help to Ukrainian separatist forces. We also know that the U.S. has made a relentless push to bring NATO right up to Russia's western border and has incorporated 12 former Eastern European countries into NATO. The State Department has also "invested" \$5 billion to promote its own allies in the Ukraine.

Promoting Enduring Peace believes we should stay out of the fighting in Ukraine. Ukraine will not be helped if it is turned to rubble.
