

Small Reforms Won't Cut It

We need an emergency mobilization to get off our fossil fuel addiction. We need a planned economy, a guaranteed good job for anyone who wants one, and rationing of fossil fuel.

We also need to de-grow the economy (with a big side benefit of a shorter workweek).

All this requires a community and worker takeover of the fossil fuel industry with the purpose of rapidly and justly transitioning to 100% renewables.

Takeover the Fossil Fuel Industries

Plan a Smokestack-Free Economy
