

Getting your podcast on Apple.¹

First sign up with a hosting site (paid: Buzzsprout for example) or (Free: Anchor.fm)

Your hosting site will provide you an RSS Feed URL Address

Copy your RSS Feed supplied by your podcast host (Buzzsprout, Anchor etc.)

Go to Apple Podcasts Connect - sign up for free or insert your sign in

<https://podcastsconnect.apple.com/>

Step 3: **Submit your RSS feed to Apple Podcasts**

Click the button below to launch the Apple Podcasts Connect website and submit your podcast to Apple Podcasts.

Launch Apple Podcasts Connect website

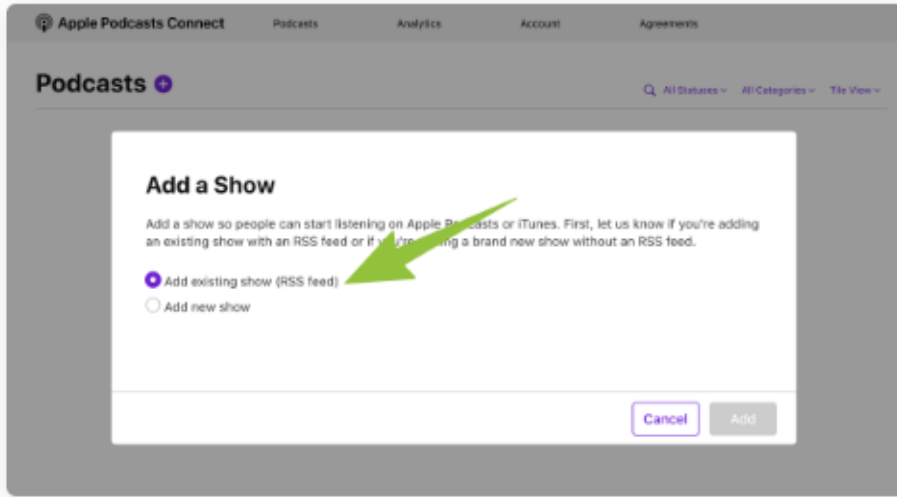

Note: You will need an Apple ID account to submit your podcast to Apple Podcasts. If you don't have one, you can easily [create an Apple ID account for free](#).

Click "+" then "New Show"

¹ <http://howtopodcast.ca/>

Select "Add existing show (RSS feed)"

Apple Podcasts Connect Podcasts Analytics Account Agreements

Podcasts + 🔍 All Statuses All Categories The View

Add a Show

Add a show so people can start listening on Apple Podcasts or iTunes. First, let us know if you're adding an existing show with an RSS feed or if you're adding a brand new show without an RSS feed.

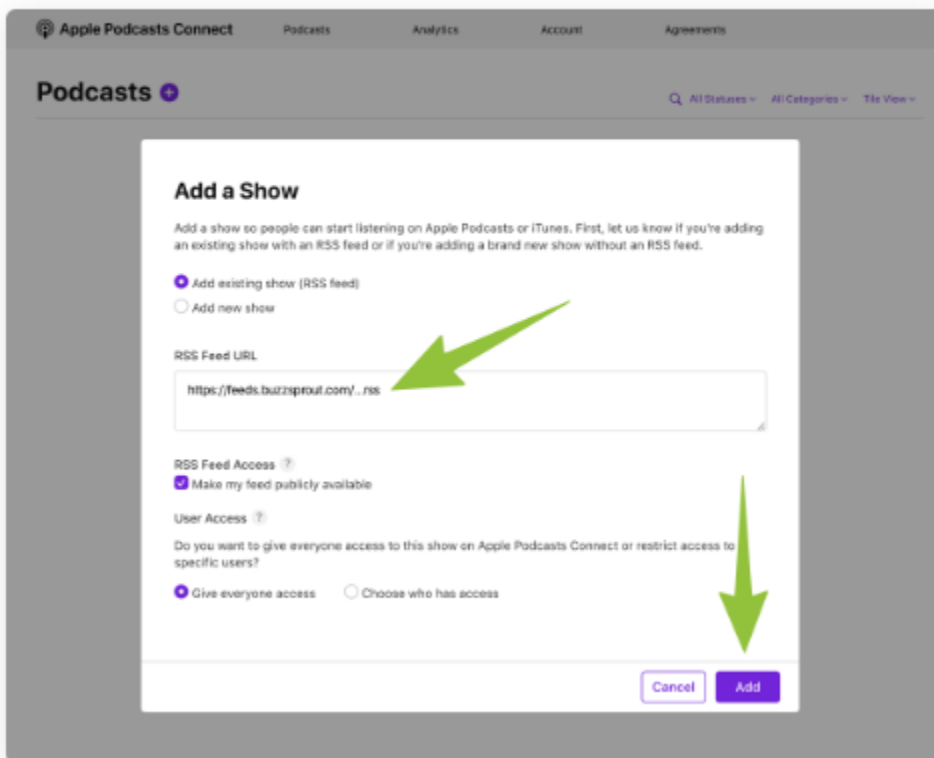

Add existing show (RSS feed) 

Add new show

Cancel Add

Enter your RSS Feed URL then click "ADD"

Recommended: Check the box labeled "RSS Feed Access" to make sure your podcast will show in podcast apps like Overcast, Castbox, etc.

✓ Congrats, your podcast is listed in the Apple Podcasts. Here is the link to your podcast on Apple Podcasts.

Your Apple Podcasts website address (URL)

Example: <https://podcasts.apple.com/us/podcast/buzzcast/id1446336657>

Save Apple Podcasts URL

Apple will provide you a url to your podcast on Apple - your host may ask you to paste this link into the host's dashboard - or you can paste this Apple URL to a podcast page like PodPage for example
