

Great Tools and Resources We Suggest!

One of the ways you can help support our podcast and help us keep the lights on is to use the affiliate links provided here! We make a small commission if you use our links below - we appreciate your support!

If you or someone you know is looking to share their story with the world, we are accepting clients to help them start their very own podcast! Contact us for more details!

Podcast Audio and Video Editing Software

[Descript](#) - All-in-one audio & video editing

[OpenShot Video Editor](#) - OpenShot Video Editor is easy to use, quick to learn, and surprisingly powerful video editor. Take a quick look at some of our most popular features and capabilities

[Canva](#) - The most versatile editing tool for images, video and more - the Swiss Army Knife for editors!

[Audacity](#) - THE BEST HANDS DOWN! We have been using Audacity for music editing and production long before the very first “podcast” was released! Free download and very fun to use - our only DAW (Digital Audio Workstation)

Website Hosting

[GoDaddy](#) - we run on GoDaddy! From domain purchases, website creation and more!

Website Tools

[Podpage](#) - The easiest way to share your podcast with your community - send your listeners here and let them choose how they wish to listen! All of our podcasts have a Podpage!

[Mangools \(SEO Tools\)](#) - We make SEO simple since 2014

[KWFinder](#) - KWFinder is the only keyword tool in the universe you will ever need. Seriously 😎

Website Tools

[One Image Music Video](#) - totally free! Make a “static image post” for YouTube and upload your podcast to be found on YouTube

Voice Over Work

[Music Radio Creative](#)

Writing Tools

[Headline Studio](#) - Write Good Headlines

[Grammarly](#) - Compose bold, clear, mistake-free writing with Grammarly's AI-powered writing assistant.

Media Hosting

[Buzzsprout](#) - Great stats, easy to use and awesome customer service - our choice for a paid service - different plans available

[Anchor](#) - Your FREE Hosting Option - no monthly cap to how many episodes you release, free music beds and transitions, record right on Anchor - a great option for new Podcasters!

Calendar/Scheduling Tools

[Calendly](#) - Book your guests, link to your Gmail and set up Zoom meetings with your calendar invite - guests book in their time zones so you don't have to worry about different time zones!

Remote Recording

[Zoom](#) - Our choice for pre-interviews and meetings - free plan gets you started!

[Riverside](#) - Record remote podcasts and video interviews in studio quality from anywhere. Used by +70,000 creators & Fortune 500 firms. App store rating: 5.0/5.0. Get started for free. iOS app available. Live stream & Record. Up to 4K video resolution. Schedule & Invite easily.

[Canva](#)

Podcast

[The School of Podcasting](#) - Yes! We are students too! Our go to for all things podcasting! Dave Jackson is our podcast inspiration!

Music for your Podcast

Our Suggestion - Try posting an ad at your local music store! Hire a local musician to record an original track for you and pay them directly! They in turn will promote your show with their track being used - forget hiring someone online and gambling on results! SUPPORT LOCAL!

[Jacob Moon](#) - Canadian Artist - create music for your show that you own!
Hear the song he wrote for us on **The UpCycle Canada Podcast**

[Max Gowan](#) - Hear Max on The Add To My Playlist Podcast - Episode 26
