BRAND MAY VARY

Prestone® Asian Vehicles (Green) Antifreeze + Coolant

78122X52

- Intended Use: This coolant is specifically formulated for use in Asian vehicles that require a green colored, phosphate Hybrid Organic Acid Technology (HOAT) coolant
- Ready-to-Use: It is a 50/50 premixed formula, meaning no mixing with water is required, making it easy for top-offs or complete system refills.

40/15/5/225A 12V Intelligent Wheel Charger with Engine Start **PL3740**

Model PL3740 delivers versatile service to today's busy shops, from battery charging and engine starting to battery maintenance and power supply support for a variety of applications. **It provides shops with the ability to manage a variety of lead acid battery types, including AGM batteries.**

With charge rates to 40A, the PL3740 makes quick work of charging even the largest batteries. Plus, it has charge settings for Flooded and AGM/Spiral Wound batteries, ensuring each battery charged gets exactly the power it needs. Add in temperature compensation and our multi-phase charging process and the result is batteries with increased reserve capacity and longer service life.

Utilizing simple knob controls, the PL3740 is easy to use and intuitive. Simply set your desired function (Charge, Power Supply Mode, Engine Start) and your operational mode (charge duration or PS Mode goal voltage) and press START. It's that easy. Plus, in charging function, it features both an AUTO charge setting as well as the more traditional timed (manual-style) settings, including 20 / 40 / 60 / 90 / 120 minute settings. LED indicators alert the operator to charging progress and the unit incorporates a range of safety features to make charging safe for the operator and the battery or vehicle being serviced.

- 12V operation
- 40/15/5A charge rates
- AUTO and HOLD charge modes
- Timed charge modes
- Properly charges Flooded, AGM, Spiral Wound, Deep Cycle and Marine batteries
- PS Mode at 3 preset values (13.4V, 13.7V, 14.1V)
- 225A Engine Start
- Analog knob controls
- Easy, intuitive interface
- Forced start mode allows servicing of totally dead (0.0V) batteries
- Reverse polarity protection
- Over-voltage protection
- Short circuit protection
- Ships fully assembled
- 2 Year Limited Warranty
(Repair from authorized depot)

60/40/10/250A 12/24V Intelligent Wheeled Charger with Engine Start **PL3760**

Combining fully automatic operation and the ability to properly charge multiple battery types, the PRO-LOGIX PL3760 is the perfect charger to meet the needs of today's and tomorrow's professional technician. Intelligent, beneficial, safe and versatile – one charger does it all, from fast charging and battery repair to engine starting assistance and stable power mode for system diagnosis, repair and programming. **Plus, with the ability to properly charge virtually any lead acid battery type, it is the only charger you will need. Flooded, AGM, Spiral Wound, Marine and Deep Cycle batteries all can be charged right with the PL3760.**

- 12/24 Volt charging and maintaining
- 60<->40/40/10A 12V charging rates
- 20/10A 24V charging rates
- Fully automatic, multi-phase charging process
- Charges multiple lead acid battery types
- Forced start allows charging of totally dead batteries
- Temperature compensation for beneficial charging
- 0-60A 12V Stable Power Mode; 13.1-14.9V range
- 0-20A 24V Stable Power Mode; 26.2-29.8V range
- 250A 12V Engine Starting Assistance Mode
- Easy-to-follow, data rich display
- 2 Year Limited Warranty
