March 16, 2024

The Honorable Mary Adams  
Monterey County Board of Supervisors, District 5  
Monterey Courthouse  
1200 Aguajito Road, S#1  
Monterey, CA 93940  
Via Email: [District5@co.monterey.ca.us](mailto:District5@co.monterey.ca.us)

Dear Supervisor Adams:

The Pebble Beach Equestrian Coalition, (PBEC Coalition), is an informal association of local equestrians and statewide equestrian supporters who are dedicated to preserving the 100-year history of the Pebble Beach Equestrian Center (PBEC). This also includes the culture that supports the Del Monte Forest, Monterey County equestrian lifestyle. We are **OPPOSED** to the actions taken by the Pebble Beach Company, (PBC), on March 4, 2024 to permanently close effective June 30, 2024 (**APPENDIX A**) the PBEC, losing 100 years of our community's history. In our first week, we have collected over 2000 signatures **OPPOSING THE CLOSURE (APPENDIX B)**. Our coalitions leaders would like to meet with you as soon as possible in March 2024 to discuss the enclosed action items.

PBEC is the last equestrian facility in the low density residential historic Del Monte Forest area and is listed in the Del Monte Forest Land Use Plan adopted in 1987, (**APPENDIX C**), Section 3, "Land Use and Development Area 7 Pebble Beach", (page 74). The 1987 Plan highlights an outstanding extensive equestrian trail system that is found adjacent to PBEC (page 97) which the public currently can access directly from PBEC. Additionally, this historical equestrian area also includes 30 miles of coastal equestrian trails currently protected by the CA Coastal Act and governed by the CA Coastal Commission. Tourists and non-equestrian owners seeking to ride a horse along the coast or in the Del Monte Forest, use that recreational public access, and do so by renting horses from PBEC at an affordable rate.

Further, PBC did not take into consideration before their March 4, 2024 closure announcement, the Covenants, Conditions and Restrictions, (CCR), of the Pebble Beach homeowners that were granted by Del Monte Properties on July 19, 1967 in perpetuity (**APPENDIX D**). Without any PBC written notice, the members of the Del Monte Forest Property Owners Association, (DMFPOA), have been illegally disenfranchised from one of their most cherished recreational benefits afforded to them when they purchased their homes.

Before any final decision is made by PBC impacting the California Coastal Equestrian Trail or the Del Monte Forest equestrian trails system, including the **ONLY** available public equestrian rental stable location at PBEC, a public hearing must be held to create the public comment record. The right for the public's participation and community input is guaranteed on any plans impacting the Del Monte Forest (page 118), "...Public Agency Participation and Citizen Participation provides Monterey County the mechanism and process for public input for planning and long-term use of the area". The PBEC Coalition is respectfully requesting your office take a leadership role in executing the follow actions:

1. Please host a District 5 formal public hearing to address the closure of the PBEC for the purpose of creating the public record. The other issues to be addressed at this meeting include the lack of public equestrian boarding facilities and public trail rides available in Pebble Beach (**APPENDIX E**). No discussion or community meeting was held by PBC prior to the March 4, 2024 decision to close PBEC so equestrians, homeowners and community have not had their voices heard.
2. At the first available meeting in April, 2024 of the Monterey County Board of Supervisors, please add an agenda item for discussion and vote the PBC's March 4, 2024 decision to close the PBEC on June 30, 2024; and direct the Monterey County District Attorney Jeannine Pacioni to file an expedited injunction against PBC to stay the closure of PBEC until all matters can be addressed by the Del Monte Forest Property Owners Association, Monterey Planning Commission; California Coastal Commission and the Del Monte Forest Nature Conservancy;
3. Obtain a formal opinion from the Monterey County Planning Commission as to if the California Public Resources Code, (PRC), Sections 21084 establishes a presumption of historical and cultural significance of the PBEC (**APPENDIX F**) and if the March

4, 2024 actions by PBC to close the PBEC violates the PRC; the Del Monte Forest Master Plan, or the California Coast Act's approved equestrian activities resulting in any negative impacts for 1. Greater public access to the Del Monte Forest equestrian trails; and 2. Expanded public access with equestrian recreation activities along the 30 miles of California's Coastal Equestrian Trails by non-equestrian owners; and

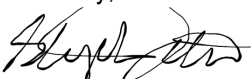

4. Find NEW alternative financial solutions for ongoing PBEC viability with the PBC that include but are not limited to: a. New public-private partnership; b. An equestrian investor to restore the PBEC; and c. Retain an experienced equestrian management vendor to take over the PBEC from the PBC and manage the daily operations of PBEC going forward.

The history of horses and equestrian life in Monterey is extensive. It is part of the fabric of our local culture, with its roots going back centuries. Horses have been a part of the Monterey area (**APPENDIX G**) since the earliest days of the European conquest in 1770. The Californios and the Spanish (1770-1822) and Mexicans (1822-1850) were excellent horsemen and invented the rodeos. When the Pacific Improvement Company opened Hotel Del Monte in 1880 and 17-mile drive in 1881, horses were the primary transportation source, and the company established a one-mile race track with polo fields, and a permanent stable housing up to 300 horses. Under the management of Dick Collins (1946-1979), the United States Equestrian Team practiced and the 1960 Olympic Team Trials were held at the PBEC. After Dick Collins retired, Abby and Jay Foss (1980-1984) added the Polo Barn and 20 stalls. From (1984-1992) Derek & Bea di Grazia managed the facility. Derek competed in the 1986 World Championships at Australia and continued the event tradition at Pebble Beach from (1992-2013). Tim Postel who as a youth trained under Dick Collins, reinstated, and expanded the Pebble Beach Summer Horse Trials. He also secured top sponsors for events and had high caliber talent at competitions and PBEC was thriving.

On July 1, 2013, the PBC took over the direct management of the PBEC. There were many promises made for new construction, improvements, and the promise of experienced management, as outlined in the 2013 Pebble Beach Equestrian Center Transition Executive Summary, letter to PBEC clients, and the February 19, 2013 Monterey Planning Department staff email (**APPENDIX H**). These PBC 2013 goals and objectives outlined were never accomplished. What was once a thriving financially viable world class equestrian center in 2013, has deteriorated thanks to eleven years of decay, financial neglect, and operational failure. This is a direct result of the poor management by PBC who on March 4, 2024 announced permanent closure of the facility to take place on June 30, 2024.

Monterey County residents have supported 100 years of public easements, development permits, and zoning code changes; they have created new zoning districts; and variances to build the nation's wealthiest PBC golf courses, which are valued today at more than \$3.2-\$3.7 billion dollars (**APPENDIX I**). Places for average equestrian boarders who do not own their own facilities are disappearing. The next generation of equestrians and places for kids to learn about horses and take riding lessons is critically limited. The community of Pebble Beach deeply values the PBEC and wants to find new solutions to closure. We seek your direct intervention as the District 5 County Supervisor to save this historic and cultural equestrian resource for future generations to enjoy. Please feel free to contact me at [info@pbecoalition.com](mailto:info@pbecoalition.com). The PBEC Coalition thanks you in advance for your consideration.

Sincerely,

**STEPHEN PELLETT**

**Founding Member, PBEC Coalition**

### Pebble Beach Company to close its century-old equestrian center after years of losing money.

Sara Rubin

Mar 4, 2024

The Pebble Beach Equestrian Center will close permanently on June 30.

The Pebble Beach Equestrian Center first opened 100 years ago, in 1924, as a basic stable to board horses owned by Pebble Beach Resorts developer Samuel F.B. Morse and other property owners.

That long tradition is coming to an end a century later.

On March 4, Pebble Beach Company announced that it will close the equestrian center permanently on June 30, 2024.

"While the Equestrian Center has a storied history, it is no longer economically viable," Pebble Beach Company spokesperson David Stivers said in a press release. "The center needs more than \$15 million in renovations, and has been operating at a substantial loss for many years. Given the overall downward trends in the equestrian industry and the continuing decrease in business at our center, this is the right decision for the company."

According a Pebble Beach Company spokesperson, revenue from the equestrian center started declining even before the pandemic, and is down 40 percent compared to 2019, with no sign of a rebound.

Currently 60 horses are boarded at the stable. Of those, 40 are owned by 30 different owners, and Pebble Beach Company is offering those 30 horse owners assistance with transportation and rebates as they find alternative lodging for their animals.

Pebble Beach Company is responsible for the remaining 20 horses, most of which it leases; those horses will be returned to their owners. The few horses that the company owns will be rehomed before the center closes at the end of June.

While this means the end of guided horseback rides and lessons at Pebble Beach, the 27 miles of equestrian trails will remain open for riders who bring their own horses.

Pebble Beach Company has also committed to keeping the dozen Equestrian Center employees on staff and will offer a retention bonus to those who stay through June 30, with an opportunity to be assigned to a new role.

The original stable was constructed for a cost of \$12,000 to lodge property owners' horses. It evolved in significance in the equestrian community over time. Under the management of horseman Dick Collins from 1946-79, the U.S. Team Trials for the Olympics were held at the Pebble Beach Equestrian Center.

Later updates included the addition of a hay barn (built in 1970), a polo barn and additional stalls. In 2013, Pebble Beach Company took back direct management for the first time since the 1940s, although that chapter only lasted for 11 years.

Pebble Beach Equestrian Center Started by Stephen Pellett  
2000+ signatures **March 5-14, 2024**

# Reverse the Closure of Pebble Beach Equestrian Center

[https://www.change.org/p/reverse-the-closure-of-pebble-beach-equestrian-center?recruiter=940258664&recruited\\_by\\_id=01d195a0-3eeb-11e9-bb29-7bf9bc309cc4&utm\\_source=share\\_petition&utm\\_campaign=petition\\_dashboard&utm\\_medium=copylink&fbclid=IwAR1IAU04p4vMRRYpdu-ZUs\\_WwtqvzmPag-zUOWw1etNFZTpzPE9a6nk\\_zMQ](https://www.change.org/p/reverse-the-closure-of-pebble-beach-equestrian-center?recruiter=940258664&recruited_by_id=01d195a0-3eeb-11e9-bb29-7bf9bc309cc4&utm_source=share_petition&utm_campaign=petition_dashboard&utm_medium=copylink&fbclid=IwAR1IAU04p4vMRRYpdu-ZUs_WwtqvzmPag-zUOWw1etNFZTpzPE9a6nk_zMQ)

## **Why this petition matters** Started by Stephen Pellett

I am a lifelong resident of Monterey, CA and have cherished memories of growing up riding at the historic Pebble Beach Equestrian Center. For the past four years, I have been fortunate enough to run my business from this beloved institution. The recent decision by the Pebble Beach Company to close down this center has deeply affected me and many others in our community.

The equestrian center is more than just a facility; it's part of our town's history and culture. It provides public boarding facilities that are unparalleled in our area. With its closure, we are not only losing an important part of our heritage but also facing a lack of good public boarding options for horse owners.

We understand that businesses must make tough decisions based on financial considerations. However, we believe that with proper management and community support, the equestrian center can continue to operate successfully without compromising its historical significance or value to local horse owners.

Therefore, we urge the Pebble Beach Company to reconsider their decision and explore alternative solutions that would allow the equestrian center to remain open while still meeting their business objectives.

Join us in preserving an integral part of our community's identity and ensuring continued access to quality public boarding facilities for horse owners in Pebble Beach. Please sign this petition today!

#### General Commercial General Commercial

This category provides for uses and development providing commercial facilities that support both visitor and community needs, and it is limited in the Forest to the general commercial facilities provided in The Lodge at Pebble Beach area (including retail sales, market, post office, gas station, etc.). All such uses shall be compatible with the general retailing and community service character of this designation, as well as community services and storage facilities.

#### Institutional Commercial Institutional Commercial

This category provides for uses and development of an institutional nature, and includes the Pebble Beach Company offices and corporation yard, Robert Louis Stevenson School, firehouses, and a utility substation.

#### Open Space Designations Open Space Designations

The primary objective of the Open Space designation is protection of the natural systems of the Forest, which include forested areas, riparian areas, wetland areas, dunes, beaches, and shoreline areas. A secondary objective is to identify appropriate locations for outside and more open recreational areas (like golf courses and the equestrian center). The LUP designates the following three classes of open space in the Del Monte Forest:

##### Open Space Recreational Open Space Recreational

This category allows for golf courses, golf driving ranges, golf clubhouses with pro shop and food and other services, equestrian centers, public access trails, neighborhood parks, as well as necessary support and maintenance facilities associated with these uses (such as golf cart and maintenance facilities, play equipment, parking areas, stables, and barns). Areas designated Open Space Recreational are generally open areas within which structures and above-ground development are present but limited.

##### Open Space Forest Open Space Forest

This category encompasses forest and inland areas (as opposed to the immediate shoreline area) that are generally not appropriate for development other than that associated with resource enhancement and limited low-intensity public recreational facilities (e.g., trails) consistent with all other LUP policies. Areas designated Open Space Forest include habitat preservation areas (including the S.F.B. Morse Botanical Reserve, the Huckleberry Hill Natural Habitat Area, and most of Pescadero Canyon) as well as other natural habitat and visually sensitive areas.

##### Open Space Shoreline Open Space Shoreline Space Shoreline

This category encompasses shoreline areas (as opposed to forest and inland areas) that are generally not appropriate for development other than that associated with resource enhancement and limited low intensity public recreational facilities (e.g., shoreline access areas, including parking turnouts, vista points, and related facilities, trails, etc.) consistent with all other LUP policies. Areas designated Open Space Shoreline include sandy beaches, rocky shorelines and tidepools, remnant sand dunes, unique

# LAND USE AND DEVELOPMENT ELEMENT LAND USE AND DEVELOPMENT ELEMENT

## INTRODUCTION INTRODUCTION

The land use and development requirements presented in this chapter are based upon the requirements of the Coastal Act as applied to the resources and physical setting of the Del Monte Forest area. A tradition of active planning and management by landowners in the Del Monte Forest area (predominantly the Pebble Beach Company and its predecessor, the Del Monte Properties Company) has provided a strong foundation for this LUP. These efforts have, over time, preserved the area's unique natural environment while creating a residential and resort community of world-renown.

Four basic goals of the Coastal Act establish direction for land use planning and development proposals for the Del Monte Forest area. They are:

1. Protect, maintain, and, where feasible, enhance and restore the overall quality of the coastal zone environment and its natural and artificial resources.

2. Assure orderly, balanced utilization and conservation of coastal zone resources taking into account the social and economic needs of the people of the state.
3. Maximize public access to and along the coast and maximize public recreation opportunities in the coastal zone consistent with sound resource conservation principles and constitutionally protected rights of private property owners.
4. Assure priority for coastal-dependent and coastal-related development over other development on the coast.

In applying these goals, retention of the Del Monte Forest area's unique natural character is paramount. The Del Monte Forest area contains rich environmental resources. The long-term protection of these resources inevitably requires a cautious and thoughtful approach to planning and regulatory decisions. The natural environment and its resources vary widely in their sensitivity to development. Environmentally sensitive areas, such as the locations of rare and endangered species, wetlands, and riparian habitats, need to be protected. Other areas where potential constraints can be mitigated through careful site planning and development controls may be allowed to have appropriate levels of development.

The Del Monte Forest area is also known for its variety of passive and active recreational opportunities available to visitors and residents. The Lodge at Pebble Beach and the surrounding environs provide a central commercial core within the Forest that is popular with residents and visitors alike. Other popular destinations include Stillwater Cove near The Lodge and The Inn at Spanish Bay near the Pacific Grove gate. World famous 17-Mile Drive is a visitor destination unto itself, and provides a through way with a series of public access areas and turnouts where one can take in the sights and sounds of both the immediate coastline as well as more inland forested areas. The Forest's labyrinthine system of trails and series of other public access areas helps round out recreational offerings. And the Del Monte Forest's eight golf courses are considered some of the top golf courses in the entire world, most of which are open for general public play. Such coastal recreational opportunities must be protected and enhanced

24

consistent with resource protection.

The Forest is also home to a vibrant residential community which has been melded with the forest resource over time. In fact, even with the level of commercial and residential development, much of the Forest remains undisturbed, which helps offset more intense developments (like the golf courses, and the more concentrated residential subdivisions), and contributes to an overall sense that there remains a forest in the Del Monte Forest – dominated by native Monterey pine and related natural resources – that has not been completely overtaken by development. Although there are limited areas where completely new development is appropriate, redevelopment of existing developments is a common trend. Such new development and redevelopment must be sited and designed to protect the Forest's built and natural environments consistent with the Coastal Act.

MONTEREY

EASEMENT DECLARATION AND AGREEMENT  
(POLC FIELD)

KNOW ALL MEN BY THESE PRESENTS: REEL 514 PAGE 422

WHEREAS, the undersigned, DEL MONTE PROPERTIES COMPANY, is the owner of a large tract of land situate in the County of Monterey, State of California, which is adapted for and principally devoted to subdivision residential use, and on which said Company maintains a lodge or hotel and also golf courses, tennis courts, riding stables and other recreational facilities for the accommodation of residents and the public; and

WHEREAS, a portion of said tract, which portion is described in Exhibit "A" annexed hereto and shown on the map annexed hereto (designated Exhibit "A-1"), is wholly owned by said undersigned, is not and never has been used for residential purposes, but is uniquely suitable for equestrian sports and exhibitions, and for many years has been used exclusively for such purposes, and it is desirable that such use be continued; and

WHEREAS, a portion of said tract, which portion is designated in Exhibit "B" annexed hereto, and is situate adjacent to and in the vicinity of said lands described in said Exhibit "A", is suitable for residential purposes and will be benefited by the maintenance of said lands described in said Exhibit "A" for use exclusively for recreational purposes; and

WHEREAS, the undersigned, in furtherance of the general plan to benefit said lands described in said

C 51518

Exhibit "D" and each of the lots therein and the owners thereof, intends by the execution and recordation of this instrument and the conveyances of such lots, as hereinafter provided, to subject said lands described in said Exhibit "A" to a negative easement, right, covenant and restriction precluding and forbidding their use for any purposes other than recreational purposes;

NOW, THEREFORE, said undersigned, for itself, its successors and assigns, hereby declares, covenants and provides, as follows:

Said lands described in said Exhibit "A" (excepting only as hereinafter otherwise provided) shall not hereafter by said undersigned, its successors, assigns, agents, lessees or licensees, be used for any purposes other than recreational purposes, as herein defined; and to that end a negative easement, right, covenant and restriction precluding and forbidding the use by said undersigned, its successors or assigns, of any part of said lands described in said Exhibit "A" for any purposes other than recreational purposes is hereby created, declared, entered into and reserved for the benefit of, and shall run with, said lands described in said Exhibit "B" and each and all of the lots therein; and such easement and right is conveyed and assigned to, and such covenant is made and entered into for the express benefit of, the several owners of record thereof, their heirs, administrators, successors and assigns; and all conveyances of said lots within said lands described in said Exhibit "B" hereafter made or executed by said undersigned,

its successors or assigns, shall contain a provision (the blanks whereof shall be appropriately filled) in substantially the following form:

"The Easement Declaration and Agreement executed by Grantor, dated \_\_\_\_\_, 1967, and recorded \_\_\_\_\_, 1967, in Volume \_\_\_\_\_, Records of Monterey County, California, page \_\_\_\_\_, is hereby incorporated herein by reference, and the covenants, restrictions and other provisions thereof are hereby adopted and agreed to by the parties hereto and declared to be applicable to this conveyance and to said parties, their heirs, administrators, successors and assigns. Grantor conveys and assigns to Grantee (and the heirs, administrators, successors and assigns of the Grantee), as appurtenant to the premises hereby conveyed, the easement and rights provided for and described in said Easement Declaration and Agreement for the benefit of the land hereby conveyed and of the other lands designated therein."

The covenants and restrictions herein referred to are and shall be without warranty, and enforceable by the remedy of injunction only and not by action for damages.

The term "recreational purposes," as used herein, means and includes polo, equestrian riding and jumping, steeple chase and equestrian competitions, and other sports and activities of any nature approved by said Del Monte Properties Company, its successors or assigns, and also horse, dog and other exhibitions and shows conducted by or with the consent of said Company, its successors or assigns.

Notwithstanding anything to the contrary contained herein, neither this Agreement, nor said easement, right, covenant or restriction, nor said provision hereinabove set forth incorporated in any such conveyance, is intended or shall be construed, to preclude said undersigned, its successors, assigns, lessees, or licensees from erecting,

# APPENDIX E

Equestrian List of boarding facilities that have closed in Pebble Beach:

LIMITED ACCESS TO EQUESTRIAN BOARDING: Pebble Beach has over 30 miles of beautiful coastal equestrian trails and finding equestrian boarding facilities is a tremendous challenge. Most of the stables in this area have closed. **Holman Ranch** closed for vineyards, **September Ranch** closed for a housing development, **Cypress Stable** closed, sold to private owners. **Tinkers' retirement horse** place is gone now, as owner passed away. **Marina Equestrian Center** has closed, **Dale's horse boarding** place on Carmel Valley Rd has closed.

Salinas, CA 93902

1/3/95

Honorable Sir or Madam:

This letter will act as a formal protest as to the legal adequacy of the cultural/historical section of the recent revised draft Environmental Impact Report (EIR) of Nov. 1995, prepared for Monterey County by E.I.T. Associates for the Pebble Beach Lot Program for the construction of an additional golf course at Pebble Beach. The specific protest is directed at the complete failure of the EIR to address the cultural/historical significance of the Pebble Beach Equestrian Center (PBEC), cited as alternative 2 for location of a new golf course in the EIR.

The Pebble Beach Equestrian Center, constructed in June of 1924 with its associated polo field and 100 miles of bridal paths throughout the Del Monte Forest, was conceived by S.F.B. Morse and his Del Monte Properties Company as one of the key features of a great private sports preserve, catering to potential investors in the Pebble Beach Colony. Development of the stable was specifically cited in the 1924 prospectus for the Monterey Peninsula Country Club, noting that "horseback riding will unquestionably have as prominent a place among the sports here, as elsewhere on the Peninsula where hunts and paper chases alternate with daily gallops." In fact the first formal horse show and riding competition associated with the equestrian center occurred on August 16, 1924, with almost 50 entrants.

From its inception in 1924 to the present the Pebble Beach stable has always been a significant location in the Western United States for equestrian activity including polo, horse shows, hunter trials and Combined Training events. With its two dressage arenas, three jump rings, polo field and cross-country course in concert with an ideal terrain, footing and open space it was and is an equestrian's dream. As early as 1928 the Douglas School for Girls began using the equestrian center to teach children to ride. Later, both the Robert Louis Stevenson and Santa Catalina Schools used it for their riding headquarters. In 1954 it became the site of the first Pony Club on the West Coast, and was often employed to train both horses and riders for international and Olympic competition.

One of the seminal figures in western equestrian training, Mr. Richard Collins, was associated with the stable from 1928 to 1980. First as Athletic Director of the Douglas School from 1928 to 1941, then as Director of the PBEC from 1941 to 1980. By 1945 Mr. Collins had turned the facility into a full fledged riding school. The historic 1920 polo field immediately south of the equestrian center was named in his honor by Del Monte Properties owner S.F.B. Morse in 1967.

**HISTORIC PRESERVATION MUSEUM INTERPRETATION**

Richard Collins and his close friend Pat Humphries introduced equestrian eventing in California shortly after the 1932 Olympic Games with horse trials in Pebble Beach and Fresno. According to the *United States Combined Training News* for Nov/Dec 1995, by the 1950s Collins equestrian summer day camp for young riders at PBEC had become "a seeding ground for the event talents of today". Olympians Michael Paige, Derek Di Grazia, Ernie Simard and Kevin Freeman of the U.S., Eric Hogan of Ireland and Richard Sands of Australia were just some of Collins students. Recognized as "the Golden Man of Eventing", Dick Collins was the United States Equestrian Team (USET) Manager from 1955 to 1960. The national USET selection trials were set at Pebble Beach from the the 1950s through the 1970s.

The California Public Resources Code (PRC) Section 21098.1 clearly states that: A Project that may cause a substantial adverse change in the significance of an historical resource is a project that may have a significant effect on the environment.

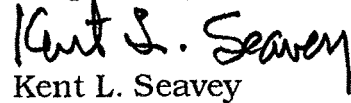

PRC Section 21084.1 establishes a presumption of historical significance unless proven otherwise, i.e. locally significant resources are presumed to be significant unless the preponderance of evidence demonstrates that it is not historically or culturally significant.

While the Pebble Beach Equestrian Center is not currently listed in any official local, state or national historic resource inventory, PRC Section 21098.1 goes on to say that: The fact that a resource is not listed in, or determined eligible for listing in, the California Register of Historical Resources, not included in a local register of historical resources, or not deemed significant pursuant to criteria set forth in subdivision (g) of Section 5024.1 shall not preclude a lead agency from determining whether the resource may be an historical resource for the purposes of this section.

It should be quite clear from the historical evidence presented that the Pebble Beach Equestrian Center is both historically and culturally significant to the people of Monterey County and the State of California in the context of recreational development, and for the many contributions to the development of equestrian training in the United States by the "Golden Man of Eventing", Mr. Richard Collins, whose name has been synonymous with the Pebble Beach Equestrian Center since the 1930s. The demolition of the Pebble Beach Equestrian Center as part of the proposed Pebble Beach Lot Program would clearly cause a significant adverse effect on the environment as defined by CEQA, and therefore must be carefully considered in any environmental review of such an undertaking.

The attached documentation is presented in support of this letter and for formal consideration by the Monterey County Historic Preservation Commission in adding the Pebble Beach Equestrian Center to the official Monterey County Historical Resource Inventory.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Kent L. Seavey". The signature is written in a cursive, slightly stylized font.

## Continuation Sheet Item #19, SIGNIFICANCE:

From its inception in 1924 to the present the Pebble Beach Equestrian Center has always been a significant location in the Western United States for equestrian activity including polo, horse shows, hunter trials and combined training events. Since 1928 it has been a particularly important center for the training of young riders, evolving in the 1950s into the seeding ground for the equestrian event talents of today. "The working students that passed through Pebble Beach eventually went on to become the key competitors, trainers, course designers and organizers for the Western States and beyond." From the early 1930s to 1980 the name of Richard Collins has been synonymous with the equestrian center as trainer and Director. Collins introduced equestrian eventing to California. In 1946 he initiated the Pebble Beach Equestrian Center Summer Show, now entering its 50th year. Collins, the United States Equestrian Team Manager from 1955 to 1960, "created a decidedly colorful and lasting influence over a group of youngsters who grew to be the Young Lions of Eventing for the West and the country at large." The 1920 polo field that marked the beginning of the Pebble Beach Equestrian Center was named in Collin's honor in 1967. While the physical plant has evolved over time to meet the changing needs of the the sport, the original stable buildings still form the core of the Center in its broad open space, framed by the pines of Del Monte Forest. In spite of change the Pebble Beach Equestrian Center still evokes a strong sense of time and place and feeling and association with its rich equine tradition.

## HISTORY

The Pebble Beach Stable finished construction in June, 1924. A product of the Del Monte Properties Company, it had been designed and built by Mr. Fred Ruhl, who had been construction supervisor on the Del Monte Lodge at Pebble Beach. Ruhl's rustic board-and-batten plan, in the form of an enclosed rectangle with interior courtyard, is still the central feature of the equestrian center. The stable was built for the accomodation of guests staying at the Del Monte Lodge and for residents of the fashionable new residential colony of Pebble Beach.

S.F.B. Morse's Del Monte Properties Company saw the new facility as one of the key elements of a great sports preserve, catering to potential investors in his exclusive real estate development, the Monterey Peninsula Country Club. The 1924 sales prospectus for the country club noted that "horseback riding will unquestionably have as prominent a place among the sports here, as elsewhere on the Peninsula where hunts and paper chases alternate with daily gallops." Morse included over 100 miles of bridal paths in his layout of the Pebble Beach colony.

On August 16, 1924 the first annual Del Monte Horse Show and riding competition for children was held with 50 riders competing in 12 events. The one day event was the beginning of a long horse show history leading to the current Pebble Beach Equestrian Center Summer Show, established by Richard Collins in 1946. The show is entering its 50th year, expecting as many as 400 entries competing in 192 separate classes.

During the 1920s polo was the "the sport of kings" and played regularly on the three polo fields at the Hotel Del Monte in Monterey, where the sport had been introduced to Californians by S.F.B. Morse. A fourth polo ground was constructed adjacent to the site of the Pebble Beach stables in 1920, and has remained in regular use to the present. The Hotel Del Monte polo fields were eventually incorporated into the Monterey County Fairgrounds and the Monterey Peninsula Airport leaving the Pebble Beach field as the only historically significant polo grounds on the Monterey Peninsula.

Because of its mild winter climate the Monterey Peninsula figured prominently in the international polo circuit with such noted players as Del Monte trained Eric Pedley, Laddy Sanford, Tommy Hitchcock, Capt. Pat Roark, Walter Hobart and Pebble Beaches Harry Hunt. The Del Monte polo team regularly hosted a number of international matches with teams coming from as far away as England and Argentina. At one time the English team trained on the Monterey Peninsula for a full year. Eric Tyrell-Martin, an accomplished English polo player, was director of the Pebble Beach Equestrian Center from 1933 to 1941.

In 1966 polo saw a revival at the Pebble Beach field, named in honor of Richard Collins. There have been international competitions with teams from England and Ireland as well as Golden State Polo League matches. In 1974 the National Inter-Scholastic Polo matches were held here. In recent times the sport has been kept active at the equestrian center by the Pebble Beach Polo Club.

In the 1930s the officers from the 76th Field Artillery and 11th Cavalry, stationed at the Presidio of Monterey, established an annual riding competition in the steeplechase area of the Monterey Peninsula Country Club. This activity evolved into the Pebble Beach Hunter Trials and Combined Training Event by the early 1950s. Eventing, one to three day tests of skill and endurance for both horse and rider were really introduced to the Pebble Beach Equestrian Center by Richard Collins, the center's Director from 1941 to 1980.

Richard Donnell Collins (1908-1984) first came to Pebble Beach in 1928 as Athletic Director and Business Manager of the Douglas School for Girls. From its onset the school used the Pebble Beach stable as a training facility for its students.

In 1941 Collins became Director of the Pebble Beach Stables consolidating it with the Douglas School riding program, naming the combined facility the Pebble Beach Equestrian Center allowing the stable to continue operations during WWII. By 1945 Mr. Collins had turned the facility into a full fledged riding school. In the early 1950s both the Robert Louis Stevenson and Santa Catalina Schools used the PBEC for their horsemanship programs. In 1954 Collins established the first Pony Club in the Western United States( styled after the English model for training young riders) at the equestrian center.

Richard Collins, with his close friend Pat Humphries were responsible for introducing equestrian eventing to California shortly after the 1932 Olympic Games with horse trials at Pebble Beach and Fresno. According to the *United States Combined Training News* for Nov/Dec 1995, by the 1950s Collins equestrian summer day camp for young riders at PBEC had become "a seeding ground for the event talents of today." Olympians Michael Paige, Derek Di Grazia, Ernie Simard and Kevin Freeman of the U.S., Eric Hogan of Ireland and Richard Sands of Australia were just some of Collins students. Recognized as "The Golden Man of Eventing", Dick Collins was the United States Equestrian Team (USET) Manager from 1955 to 1960. The national USET trials were set at Pebble Beach from the 1950s through the 1970s. In 1967 S.F.B.Morse expanded the historic Pebble Beach polo grounds by 13 acres, grassed the field and named it in honor of Richard Collins.

From the evidence presented it should be quite clear that the Pebble Beach Equestrian Center is both historically and culturally significant to the people of Monterey County and the State of California in the thematic context of recreational development. And for the major contributions to the development of equestrian training in the United States by the "Golden Man of Eventing", Mr. Richard Collins, whose name has been synonymous with the Pebble Beach Equestrian Center since the 1930s. While the physical layout of the PBEC has been altered over time to meet the changing needs of equestrian training, the historic core compound with its familiar courtyard remains, as does its broad open setting, framed by the pines of the Del Monte Forest. Unfortunately only about a quarter of the original 100 miles of bridal trails remain in use. The Pebble Beach Equestrian Center evokes a strong sense of time and place and of feeling and association with the significant equestrian history it represents, and should be formally listed on the Monterey County Historical Resources Inventory.

Neil Hotelling, July 2013, Pebble Beach Equestrian Center Brief History.

## **Pebble Beach Equestrian Center A Brief History**

*By Neal Hotelling. July, 2013*

### ***The Prologue***

Horses have been a part of the history of this area since the earliest days of the European conquest in 1770. The Californios of the Spanish (1770-1822) and Mexican (1822-1850) periods were devout horsemen, who created exhibitions of skill that became known as rodeos.

When Pacific Improvement Company opened Hotel Del Monte in 1880 and 17-Mile Drive in 1881, horses were the chief form of transportation, either on horseback, or more often with hotel guests, via touring wagons. Along with the stable for the horses used for transportation, the company established a one-mile oval race track with polo fields on the infield, requiring a permanent stable that could house up to 300 horses, as polo teams would often bring their own ponies in for competitions. The Del Monte stables, located in the area of today's Monterey Fairgrounds, were known and acclaimed throughout the west.

When water was needed for their developments on the Monterey Peninsula, the company acquired thousands of acres in Carmel Valley so they could control the river and build the original Los Padres Dam, from which they piped water to the peninsula. With all the land, they developed Rancho Del Monte (today's Los Laureles Rancho), requiring work horses, that could be regularly rotated with horses used for pleasure rides, and so the company pastured many of its horses in Carmel Valley when not used on the peninsula.

The Pacific Improvement Company thrived under its railroad baron founders known as The Big Four – Charles Crocker (1822-1888), Mark Hopkins (1813-1878), Collis Huntington (1821-1900), and Leland Stanford (1824-1893). However, a depression in the 1890s, their deaths, and heirs selling-off the railroads, led to a decline of many of their properties, including Del Monte. By 1915, the heirs decided to liquidate all of their holdings; including the nearly 20,000 acres they held in Monterey County, known as the Del Monte unit. There had been very little development in the Pebble Beach area, and the few homes there before 1915 (the Hills, the Hathaways, and the Flints, for example) maintained private stables.

Samuel F.B. Morse (1885-1969), was hired as the liquidator. And while he sold-off hundreds of holdings across the country, he saw real promise at Del Monte. While raised in the Boston area, and graduated from Harvard, he grew up with horses and was an accomplished rider. In the five years prior to being hired by Pacific Improvement, he had been managing the Crocker ranches in Merced. One of his first moves at Del Monte was reestablishing the massive equestrian center. Despite the belief that horse-racing had been made illegal, it had only been made impractical – by a rule that limited a facility to 15 days per year of racing. Undaunted, Morse established a Jockey Club at Del Monte in 1917, with some of the top breeders in the country – including A. Kingsley Macomber (to whom Morse also sold 80-acres near Pebble Beach), August Belmont (whose farm foaled Man O' War that year), Jean St. Cyr, and several of California's moneyed class.

### ***Del Monte Properties Company***

In February of 1919, S.F.B. Morse oversaw the opening of the new Lodge at Pebble Beach (known then as Del Monte Lodge) and Pebble Beach Golf Links and then formed Del Monte Properties Company and acquired the Del Monte unit himself. For the next 50 years, he ran the company and oversaw development of Del Monte Forest as well as other areas near the Monterey Peninsula. Until World War II (1942), Hotel Del Monte was the core of the resort operation. The Lodge was run as an adjunct to the hotel operation and to encourage sales of home sites in the forest. Similarly, the Del Monte Equestrian Center was the center of equestrian activity and in the 1920s and 1930s international polo teams competed at Del Monte and the track was used for both traditional horse racing and an annual steeplechase.

Cars had become the primary mode of transportation, but horses were still enjoyed and admired as part of the lifestyle of the resorts' clientele.

### ***The Early days of the Pebble Beach Equestrian Center***

About 1920, Morse cleared a field near today's equestrian center. The purpose was as an airstrip, because many of the visitors and some of the early landowners were aviation enthusiasts who flew their own small planes. Additionally, Morse, formerly a member of the citizen Cavalry at the Presidio of San Francisco, maintained a good relationship with the 11<sup>th</sup> Cavalry, which operated a large stable at the Presidio of Monterey. Morse contracted for the company to remove the manure, which the company blended with green waste to create a soil enhancer, and also allowed the soldiers to use the open coast of Del Monte Forest as a practice ground for their equestrian exercises.

By 1924, there were a growing number of homeowners in Del Monte Forest, including Morse, who moved into his residence near the 18<sup>th</sup> green that year. Additionally, Morse was developing plans for the new Monterey Peninsula Country Club with hundreds of quarter-acre lots where personal barns would not be practical.

So in 1924, the initial stables were built near the airfield. Fred Ruhl, who had earlier served as the building superintendent for Pacific Improvement, was hired to construct the simple board-and-batten quadrangle stables with a rectangular, open interior courtyard at a cost of \$12,000. Its primary purpose was to serve as a boarding stable of the horse of forest residents, who were welcome to use the nearly 100 miles of bridal trails that ran through the forest. International polo star Eric Pedley, who managed the Del Monte Equestrian Center, likely also had charge of the new facility at Pebble Beach.

Shortly after opening, on August 16, 1924, the Pebble Beach center hosted "The First Annual Del Monte Horse Show" with 50 children competing. There is no record of a second annual show. While the adjoining airfield remained unturfed, some locals used it to practice and work out their polo ponies in preparation for the big matches at Del Monte.

In 1925, Grace Douglas, started a summer camp for girls in the forest. They participated in a number of outdoor activities, including riding, as well as receiving instruction in being proper young ladies. In 1928 The Douglas School opened (at the

site of Stevenson School) and Grace hired young Richard Donnell "Dick" Collins (1908-1984) as the business manager and athletic director. Dick was also an accomplished horseman, and taught riding to the school girls. He would later become central to the Pebble Beach Equestrian Center.

Shortly after the 1932 Olympics, held at Los Angeles, British polo player Eric Tyrell-Martin became Director of both stables in May of 1933. Collins attended the Olympics where he was introduced to "eventing." A few years later he helped introduce eventing at Pebble Beach. Some reports state that the Pebble Beach Hunter Trials and Combined Training Event – with competitions in dressage, cross-country and stadium jumping tests, began with officers of the 76<sup>th</sup> Field Artillery and 11<sup>th</sup> Cavalry (which, were featured in the 1938 film "Sergeant Murphy" starring Ronald Reagan; the title character was a horse). Whether it was the Army or Collins, or the two working together is academic as the event continued annually for decades under Collins leadership.

Dick Collins was selected to take over the resorts' equestrian facilities in 1941, but before he could take charge, war broke out and Collins, then 33, enlisted. Also due to the war, and concern for Japanese submarines along the coast, the Douglas school was closed, and reverted to being a camp in Carmel Valley, where it is still operated by the grandchildren of the founder. Hotel Del Monte, was leased to the Navy in 1943, and the equestrian Center there was converted to exercise fields for cadets in pre-flight training and a football field where the cadets played against the best college teams in California. The Navy opted to keep the facilities at Hotel Del Monte and purchased them outright in 1948.

### ***The Dick Collins Era – 1946-1979***

Collins returned to the peninsula after the war and took over management of the Pebble Beach Stables, which were soon renamed the Pebble Beach Equestrian Center. Whether this tenure began as a lease, or evolved into that Collins ran the operation as a leaser of the property for many years. His first event was a one-day "Pebble Beach Summer Horse Show" on August 4, 1946, with 87 entrants in 15 different classes and continued annually in an expanded form, even beyond Collins' retirement in 1979. In addition to continuing the Hunter Trials and Summer Horse Show, Collins did much to establish Pebble Beach as an important equestrian center.

In the boon economy after WWII, Stevenson (then a boys' school) took over the former site of the Douglas School, and Santa Catalina opened as a girls' school – both came to Pebble Beach for equestrian lessons. In 1954, Collins established the Pony Club, based on the English model for training young riders; it was the first such club in America.

Collins prominence in the equestrian world was also on the rise. He was named manager of the U.S. Equestrian Team for the 1955 Pan-American Games, held in Chicago, and that was followed by his appointment to manage the U.S. Team at the 1960 Olympics, held in Rome. The 1960 Olympic Team Trials were held at the Pebble Beach Equestrian Center.

The Los Altos Hunt began making its annual April treks to Pebble Beach in 1959, using both the facilities near the stables and the Hunt Course at the shoreline, originally

established by the cavalry, and initially preserved when Monterey Peninsula Country Club completed their Shore Course in 1961. In 1967, The Los Altos Hunt added a steeplechase event to their annual outing – the first on seen on the peninsula since before WWII. Their annual events continued for 35 years until MPCC closed the course in 1995 in preparation for remodel.

The former airstrip field was finally turfed and christened as “Collins Field” on April 21, 1968. Though not quite regulations in size, it occasionally saw polo, as well as soccer, rugby, Scottish games, dog shows and also golf.

### **Later Years and Expansion – 1980-2013**

A hay barn was added to the facility in 1970. Then, after Collins retired, the facility was further expanded under the direction of Abby and Jay Foss from 1980-84. Abby had earlier been Master of the Fox Hounds for the Los Altos Hunt and coming to Pebble Beach for years. In 1981, they added the Polo Barn and another building with 10 stalls. In 1983, they added another 10 stalls.

From 1984-1992, Derek & Bea diGrazia operated the Pebble Beach Equestrian Center. Derek competed in the 1986 World Championships at Australia and continued the eventing tradition at Pebble Beach. From 1992-2013, Tim Postel, who in his youth had been a student of Dick Collins, ran the facilities. In 1994, Postel reinstated and expanded the Pebble Beach Summer Horse Trials, which had been discontinued after 1984. Postel brought in top sponsors for events that attracted top talent.

Throughout the years of major events, however the core daily activity continued to center around the boarding of horses owned by local residents, riding lessons and trail rides, allowing locals and visitors to enjoy the beauty and serenity of the Del Monte Forest in a truly unique way.

Throughout his decades of careful development, Morse’s guiding principal was:  
*“Our package is a good time. We are not selling food or a place to sleep like a commercial hotel in the city. People come here to enjoy themselves. We realized that the beauty of the region and the extraordinary equitable climate were our selling points. We also realized that with a large area of back country away from the waterfront, we had to be sure to preserve the waterfront and also preserve the forest. What we wanted was to have guests go away with the feeling, without analyzing why, that they had been very happy at Del Monte [now Pebble Beach].”*

### **A New Era for the Pebble Beach Equestrian Center**

On July 1, 2013, Pebble Beach Company resumed direct management of the Pebble Beach Equestrian Center for the first time since the Collins Era and will focus on the core activities of boarding, lessons and trail rides.

We invite you to step back from the fast-paced and noisy world of technology; we invite you to turn off your cell phone, take out your ear-buds, and spend some time on the back of a horse and step back in time to explore the beauty of Del Monte Forest as your ancestors might have, and as our founder, S.F.B. Morse did, a century ago, on one of the oldest forms of natural transportation.

## **APPENDIX H**

- a. July 24, 2013 draft letter to Pebble Beach Equestrian Center Clients on transition;
- b. Pebble Beach Equestrian Center 2013 Executive Summary on Transition; and
- c. February 19, 2013 email from Mike Novo, Planning Director, Resource Management Agency-Monterey Planning Department on PBEC easement for PBEC improvements.

June 24, 2013

Dear Pebble Beach Equestrian Center Client,

On July 1, 2013, Pebble Beach Company will assume responsibility for the management of the Pebble Beach Equestrian Center from our tenant, Tim Postel. We wish Tim the best of luck in his future endeavors.

Going forward, I will have overall responsibility for the PBEC as a Pebble Beach Resort facility, and Margaret Leighton, a 25 year client of PBEC and 30 year employee of Pebble Beach Company, will have direct responsibility for day-to-day operations. She will be assisted by Shawn Casey, our Director of Resource Management, who will handle maintenance of the facility.

Pebble Beach Company is committed to maintaining the Equestrian Center as part of the Del Monte Forest recreational experience. We intend to operate the PBEC as a full-service equestrian center, including boarding, trail rides, lessons, and training. We may need a few weeks during the initial transition period to get all aspects of the center fully back up to speed, and we appreciate your patience in the interim.

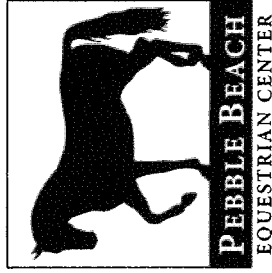

Finally, we plan to schedule regular monthly barn meetings with you to listen to your suggestions, answer your questions, and learn how we can improve our services.

We appreciate your continued support. If you have any questions, please feel free to contact Margaret at 625-8455 or me at 625-8449.

Sincerely,

**PEBBLE BEACH COMPANY**

Mark Stilwell  
Executive Vice President, Real Estate

## **Pebble Beach Equestrian Center 2013**

### **Executive Summary**

It is necessary to transition Pebble Beach Equestrian Center (PBEC) from a leased, managed property to a Pebble Beach Resorts property, in order to recover economic viability and ensure a feasible and practical move to the future new facility.

With a new vision, and management by Pebble Beach Resorts, PBEC will be able to provide first class boarding, trail rides, lessons, and training. This transition will allow PBEC to be profitable enough to not only stand alone, but also to contribute substantially toward the future new facility.

PBEC should be operated and marketed as the premier equestrian facility on the West Coast. Just as it is the dream of every golfer to play Pebble Beach courses, it should be the desire of every equestrian to ride and train at PBEC.

Equestrians represent the same high-end target group who golf and stay at Pebble Beach Resorts. Equestrian sports have been a part of Pebble Beach since SFB Morse founded the company in 1919.

## **Objectives/Goals**

- Transition from a leased to a managed property.
- Recover economic viability and instate income-building programs.
- Bring the business plan up to Pebble Beach Company standards.
- Prepare for a new facility with proven economic viability, and a wider diversity of income-producing events (including workshops, conferences, and clinics).

## **Issues**

- Current lack of management and on-site supervision by lessee
- Suspension of income-providing programs
- Lack of trained employees
- Lack of marketing
- Apathy and disorganization at all levels from boarders to staff
- Current buildings in disrepair and at the end of their structural life

## **Action Plan**

- Provide quality five-star service in line with Pebble Beach Resort standards.
- Make basic improvements to structures to safely accommodate clients and horses until a new facility can be built.
- Instate caring and experienced management.
- Employ competent, qualified, service-oriented employees.
- Provide five-star instruction from renowned, reputable trainers.
- Launch new, effective marketing strategies to attract local and visiting equestrians and resort guests.

## Historical Over view

PBEC is a venerable, unique, and invaluable establishment. A part of the fiber of the sporting opportunities in the Del Monte Forest since 1925, PBEC is an important recreational asset to Pebble Beach, the local Monterey Peninsula community, and beyond. SFB Morse was himself an accomplished equestrian, and recognized that equestrian sports and activities should be a vital part of this upscale enclave. When he founded the company in 1919, Morse placed the Equestrian Center in a prominent location for this reason.

## What makes PBEC Unique?

- Location – Central on the Monterey Peninsula – Few riding centers have close access to as many amenities.
- Mild climate – Few equestrian centers provide riding opportunities throughout the year.
- Access to miles of trails and open space with access to the ocean.
- Name recognition and a rich historical background.

## Why Should Pebble Beach Company run PBEC?

- When managed as professionally as other Pebble Beach resorts, PBEC will be a fiscal asset and a source of pride.
- PBEC will diversify the Pebble Beach brand, and create additional recreational opportunities for its guests and for local residents.
- Once rebuilt, PBEC will have potential as a premier resort destination.
- Clinicians and hotel/PBEC packages will bring clients to Pebble Beach Resorts in the same way as the planned Golf Academy.
- PBEC should be run by staff hired by Pebble Beach Company: Competent, talented employees with not just a passion for horses, but the commitment to provide five-star service for Pebble Beach Resort guests.

## **What Makes a World-Class, Five-Star Equestrian Facility?**

### **Management**

- Oversight of the operation should be in the hands of a manager who has long-term knowledge of the current facility, employees, and clients, and is familiar with Pebble Resorts/Corporate culture.
- There will be frequent communication and total transparency. There will be a dedication to the welfare of the horses and to the satisfaction of the clientele, as well as respect for the employees and fulfillment of the Pebble Beach Company vision.

### **Employees**

Clients with a horse(s) worth up to six figures expect the same level of top-class service and instruction as provided by Pebble Beach Company employees at the golf courses and resorts, from the grounds person to the top golf professional.

Per current Pebble Beach Company protocol:

- Retained employees and independent contractors will be re-trained with emphasis on customer satisfaction, attention to detail, and a higher level of expertise.
- New employees and independent contractors will be hired based on a commitment to the values of customer satisfaction, attention to detail, and a level of expertise.
- All existing and new employees will have a job description, and will be familiar with the expectations of their position.
- There will be weekly staff meetings to insure the level of service is maintained.

### **Marketing PBEC**

- PBEC will be actively marketed with professional support from Pebble Beach Resorts marketing division at its relaunch as a Pebble Beach Resorts property. PBEC will be showcased to local residents, out-of-town visitors, and guests of Pebble Beach Resorts.
- As our future equestrians, children especially will be encouraged to come and ride, and incentives for lessons will be offered.
- PBEC will reach-out to local non-profits such as the Boys and Girls Club, and offer programs to underprivileged children while continuing to liaise with Santa Catalina and Stevenson Schools for after-school lessons and programs.

### **First-Class Instruction**

- The level of instruction is a *major deciding factor* for equestrians when selecting a boarding/training facility.
- PBEC will offer a range of professional instruction to accommodate all levels of riders and horses in a variety of different disciplines.
- PBEC trainers and instructors, whether they are full time, work on contract, or offer occasional on-site clinics, will have successful resumes and the ability to help clients reach their goals.

### **Safety**

Whether it is a sport horse worth \$400,000 or a child's beloved pony, the safety of that equine and the safety of the boarders and clients will always be a top priority. Parents should feel that their child is in safe hands, and boarders should know their horses are safe and checked regularly. PBEC will be locked and secured every evening at dusk.

This is a conversation with the Planning Commission a while back regarding the Land Use Plan. Note what is described as the project description for the Equestrian Center.

Thea—sorry, I thought we had already forwarded this information to you. The Pebble Beach Company obtained approval of their project about a year ago for all their properties.

Joe, the project planner, looked at the information you provided as well as explains what was approved last year.

Thanks,  
Mike

**Sent:** Tuesday, February 19, 2013 5:19 PM  
**To:** Novo, Mike x5192  
**Subject:** RE: PBEC Easement

Mike,

The easement is a private easement between the Del Monte Properties Company (successor = Pebble Beach Company) and surrounding

property owners. Exhibit B of the easement is not attached, and it's not clear in the easement language as to who the benefitted properties are exactly. However, it is clear that the County is not a party to the easement.

Also, the proposed use of Collins Field as a driving range is consistent with the definition of "recreational purposes" contained in the easement, which includes the phrase "..., and other sports and activities of any nature approved by said Del Monte Properties Company, ..."

The term "recreational purposes," as used herein, means and includes polo, equestrian riding and jumping, steeple chase and equestrian competitions, and other sports and activities of any nature approved by said Del Monte Properties Company, its successors or assigns, and also horse, dog and other exhibitions and shows conducted by or with the consent of said Company, its successors or assigns.

Hunt Field is the area that will be used as the Special Events Staging Area. The area has already been used for staging various activities & events for many years, and most of the uses are not associated with the equestrian center (e.g.; concourse, golf tournaments, food & wine events, etc...). Based on the PBC proposal, this area will be re-graded, and will continue to be used for staging of numerous activities & events. Some of these activities & events may be equestrian-related.

Lastly, PBC will be constructing a new Equestrian Center (EC) on the existing EC parcel. The new facilities will include a 47,000 square foot covered arena that will be used for equestrian activities & events.

Project Description excerpt for the EC:  
...a Coastal Development Permit and Design Approval to allow the demolition of approximately 54,300 square feet of equestrian, residential, and accessory structures, and the construction of approximately 81,500 square feet of equestrian, accessory, and residential structures (including a 47,040 square foot covered arena, an 1,825 square foot vehicle storage garage, a 3,680 square foot hay barn, 2 single-story 1,325 square foot dwelling units with attached covered

carports totaling 2,650 square feet (staff residences), a 2,100 square foot rider's lounge, a 1,635 square foot office, 2 pipe stall structures totaling 4,565 square feet, 6 box/day stall structures and tack room totaling 14,810 square feet, 2,560 square feet of pens, a 600 square foot manure storage area, and turnouts and training rings), and approximately 3,000 linear feet of wood fence and entrance wall; 5) a Coastal Development Permit to allow the construction of interior roadway/walkway and surface parking (approximately 79,950 square feet), trail, and infrastructure improvements...

Joe
