

# Jerith Industrial

*1" Picket | Heavy Duty*

Our Industrial Aluminum Fence provides attractive, maintenance-free security for industrial applications. It's the perfect choice whenever it's necessary to add safety and protection, yet complement the architectural or landscape design.

## PRIMARY APPLICATIONS

- Public Housing Authorities
- State Facilities
- Stadiums & Event Centers
- Schools & Universities
- Airports
- Parks & Recreation
- Hospitals

**JERITH.COM** **800-344-2242**

(FB): Flush Bottom

### COLORS

- Black
- Bronze

### GATES

Gates match the fence style and are available in standard or arched designs.

### QUALITY & STYLE

When we started manufacturing ornamental aluminum fences around 50 years ago, we made a commitment to producing only durable, high-quality, 100% American-made products. That commitment has become the backbone of our reputation and our promise to you.

### LIFETIME LIMITED WARRANTY

Every fence comes with a lifetime warranty, made possible by our FencCoat™ finish and HS-35™ Aluminum Alloy.

### DOMESTIC MANUFACTURING

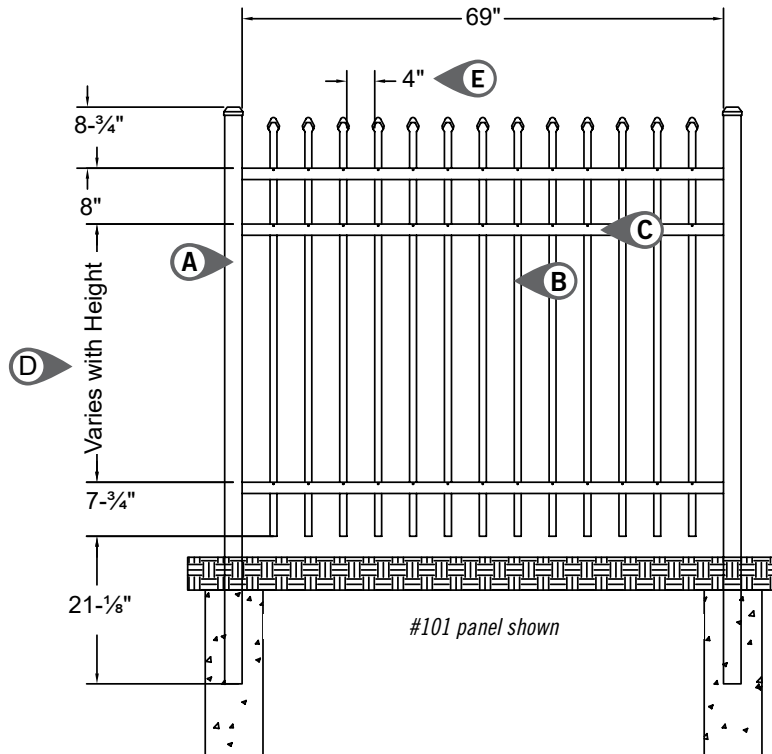

Jerith is committed to providing products that are 100% extruded, coated, fabricated, assembled and packaged in the USA.

ASSA ABLOY

## JERITH INDUSTRIAL | CONSTRUCTION SPECIFICATION 32 31 19

## ALUMINUM ORNAMENTAL FENCE SYSTEM

## PART 1 - GENERAL

## 1.01 WORK INCLUDED

The contractor shall provide all labor, materials and all necessary items for the installation of the Jerith Industrial® ornamental aluminum fence system defined herein at (*specify project site*).

## 1.02 RELATED WORK

Section \_\_\_\_ - Earthwork

Section \_\_\_\_ - Concrete

## 1.03 SYSTEM DESCRIPTION

The manufacturer shall supply a total ornamental aluminum fencing system of the Jerith Industrial® (*specify #100, #101, #111, #200, #202, #401, or #402*) design. The system shall include all components (*i.e., pickets, posts, rails, gates and hardware*) required.

## 1.04 QUALITY ASSURANCE

The contractor shall provide laborers and supervisors who are thoroughly familiar with the type of construction involved and the materials specified.

## 1.05 REFERENCES

- **ASTM B117** – Practice for Operating Salt-Spray (Fog) Apparatus
- **ASTM B221** – Standard Specification for Aluminum and Aluminum-Alloy Extruded Bars, Rods, Wire, Profiles and Tubes
- **ASTM D523** – Test Method for Specular Gloss
- **ASTM D1654** – Test Method for Evaluation of Painted or Coated Specimens Subjected to Corrosive Environments
- **ASTM D2244** – Test Method for Calculation of Color Differences from Instrumentally Measured Color Coordinates
- **ASTM D2794** – Test Method for Resistance of Organic Coatings to the Effects of Rapid Deformation (Impact)
- **ASTM D3359** – Test Method for Measuring Adhesion by Tape Test
- **ASTM D6695** – Standard Practice for Xenon-Arc Exposures of Paint and Related Coatings
- **AAMA 2603** – Voluntary Specification, Performance Requirements & Test Procedures for Pigmented organic Coatings on Aluminum Extrusions and Panels

## 1.06 SUBMITTAL

The manufacturer's submittal package shall be submitted prior to installation to confirm compliance with all requirements for materials specified in this section.

## 1.07 PRODUCT HANDLING AND STORAGE

Upon receipt at the job site, all materials shall be checked to ensure that no damages occurred during shipping or handling. Materials shall be stored in such a manner to ensure proper ventilation and drainage and to protect against damage, weather, vandalism and theft.

## PART 2 - MATERIALS

## 2.01 MANUFACTURER

The ornamental fence system shall conform to Jerith's Industrial aluminum ornamental fencing, (*specify #100, #101, #111, #200, #202, #401, or #402*), style manufactured by Jerith Manufacturing in Philadelphia, Pennsylvania.

## 2.02 MATERIAL

- A. Aluminum material for fence framework (*i.e., tubular pickets, rails and posts*) shall conform to the requirements of **ASTM B221**. The aluminum extrusions for posts and rails shall be Alloy and Temper Designation **6005-T5**. The aluminum extrusions for pickets shall be Alloy and Temper Designation **6063-T6**.
- B. Pickets shall be 1" square x .062" thick. Horizontal rails shall be 1-5/8" x 1-5/8" channel with .070" thick top & .100" thick side walls and shall be punched to allow picket to pass through the top of the rail. Fence posts and gate posts shall meet the minimum size requirements of **Table 1**.
- C. Accessories: Aluminum castings shall be used for all post caps and other miscellaneous hardware. Hinges and latches shall be fabricated from aluminum, stainless steel or composite materials.

## 2.03 FABRICATION

- A. Pickets, rails and posts shall be pre-cut to specified lengths. Rails shall be pre-punched to accept pickets. Fasteners shall be inserted into the pre-punched holes in the rails and pickets so that pre-drilled picket holes align with the rails. Panels to be preassemble by manufacturer.

# JERITH INDUSTRIAL | CONSTRUCTION SPECIFICATION 32 31 19

## ALUMINUM ORNAMENTAL FENCE SYSTEM

B. Swing gates shall be fabricated using Jerith Industrial 1-5/8" x 1-5/8" rail material, 1-5/8" gate ends, and 1" sq. x .062 pickets. All rail and upright intersections shall be joined by welding.

height, and number of gate cycles. The manufacturers' gate drawings shall identify the necessary gate hardware required for the application. Gate hardware shall be provided by the manufacture of the gate and shall be installed per manufacturer's recommendations.

### PART 3 - EXECUTION

#### 3.01 PREPARATION

All new installation shall be laid out by the contractor in accordance with the construction plans.

#### 3.05 CLEANING

The contractor shall clean the jobsite of excess materials; post-hole excavations shall be scattered uniformly away from posts.

#### 3.02 FENCE INSTALLATION

Fence post shall be spaced according to **Table 2**. For installations that must be raked to follow sloping grades, the post spacing dimension must be measured along the grade. Fence panels rails shall be inserted into punched posts and affixed with fasteners. Posts shall be set in concrete footers per manufacturers recommendation (*Note: In some cases, local restrictions of freezing weather conditions may require a greater depth*). The "Earthwork" and "Concrete" sections of this specification shall govern material requirements for the concrete footer. Posts setting by other methods such as plated posts or grouted core-drilled footers are permissible only if shown by engineering analysis to be sufficient in strength for the intended application.

#### 3.03 FENCE INSTALLATION MAINTENANCE

When cutting/drilling rails or posts adhere to the following steps to seal the exposed surfaces; 1) Remove all metal shavings from cut area. 2) Apply custom finish paint matching fence color. Jerith spray cans or touch up paint shall be used to finish exposed surfaces; it is recommended that touch up paint be used to prevent overspray. Use of non-Jerith parts or components will negate the manufacturers' warranty.

#### 3.04 GATE INSTALLATION

Gate posts shall be spaced according to the manufacturers' gate drawings, dependent on standard out-to-out gate leaf dimensions and gate hardware selected. Type and quantity of gate hinges shall be based on the application; weight,

## JERITH INDUSTRIAL | LIMITED LIFETIME WARRANTY

### ALUMINUM 1" PICKET FENCE

Jerith Aluminum Fence is manufactured from the highest quality materials by skilled craftsmen to meet the highest standards of workmanship in the industry. Extruded aluminum panels and posts shall be subject to a pretreatment wash followed by an electrostatic spray application of TGIC polyester powder coat finish, which provides the protection necessary to withstand adverse environmental conditions.

The powder coated surface on all Jerith® aluminum panels and posts are guaranteed under a limited lifetime warranty for normal and proper usage without cause, against cracking, peeling, chipping, blistering or corroding. Normal and proper usage does not include physical damage or abrasion to the protective coating. The warranty is non-transferable and is only valid to the original purchaser. Jerith Aluminum Fence is also guaranteed against defects in workmanship and materials.

Should any aluminum fence panels or posts manufactured by Jerith manufacturing fail in accordance with any of the above conditions, Jerith Manufacturing warrants to the original purchaser their redemption through replacement or renewal. The decision as to which method of redemption is allowed is solely at the discretion of Jerith.

Notice of failure under the conditions of this warranty shall be sent to Jerith Manufacturing or its authorized representative, in writing, together with proof of purchase and shall specify the nature of the defect and when it was first observed. If contractor uses non Jerith parts/components this will negate warranty. Should the fence be improperly installed, Jerith Manufacturing shall not be responsible for guaranteed performance or appearance of the material. Neither does this guarantee apply when failure or damage is due to improper use or application, abuse or misuse, vandalism or acts of God. Jerith Manufacturing reserves the right to inspect the material to determine validity of the claim.

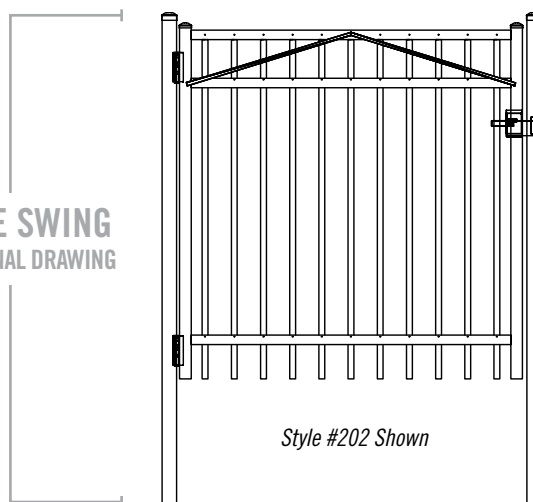

Upon validation of the claim by Jerith Manufacturing or its authorized representative, redemption by replacement or renewal shall be made by Jerith Manufacturing. Reimbursement for the costs of removal and installation of materials are not included in the guarantee, nor will Jerith Manufacturing provide those services.

The above constitutes the complete warranty by the manufacturer. No other agreement, written or implied, is valid. Jerith Manufacturing does not authorize any other person or agent to make any other express warranties. Jerith Manufacturing neither assumes nor authorizes any other person or agent to assume any other liability in connection with Jerith Aluminum Fence. Some jurisdictions do not allow limitations on how long an implied warranty lasts, nor do they allow an exclusion or limitation of incidental or consequential damages; therefore, the limitations and exclusions noted herein may not apply.
