Our Programs

THE CLASSROOMS

Our early childhood educators teach children in our mixed-age programs about their world, expressing feelings, problem-solving, and friendship skills within our heart-centered and supportive environment. We implement developmentally appropriate emergent curriculum, building positive and lifelong relationships!

THE ATELIER

We have a separate space from the Great Room to create magic as our atelier, where children work with light/shadows, sensory materials, and various child-accessible artistic media. Our mini atelier extends this invitation outdoors onto the backyard porch, where children can explore art, nature, light, texture, and the changing elements of the natural world.

THE KITCHEN

Precious wisdom is shared through curious hands as cooking explorations and preparing for mealtime are part of relationship-driven learning. We provide morning and afternoon snacks. Visit our website to see our school menu. Mangia! Mangia!
