

P415 EDGE

The American STANDARD

UNSTOPPABLE IN UNFAVORABLE CONDITIONS

The P415 was engineered to be virtually unstoppable in unfavorable conditions. It is a product of continuous development and improvement to the AR platform that no other rifle company has attempted or succeeded at.

The reliability has been tested time after time, and the operating system perfected. E² Extraction Technology, complete ambidextrous fire controls, modular free floating rail platform, and numerous internal improvements make it the pinnacle of all-purpose 5.56 caliber sporting rifles. The P415 simply will not fail when you need it most.
