Schedule a Hearing Evaluation
OR attend a monthly Q&A
Workshop Event. Mention this ad
for a complimentary Hearing Test
(\$250 Value) AND 10% off the
Hearing Evaluation.

The inner ear is a delicate and highly complex organ. Hearing is not only a pleasure but also helps with spatial awareness and acoustic orientation. Problems with hearing can significantly impact cognitive health.

At Evergreen Factor, we offer gentle, non-invasive bio-stimulative laser light therapy to help with chronic and acute conditions of the inner ear. This is an advanced approach to promoting longevity. Evergreen Factor is partnered with Lumomed Laser Therapy and is **one of only four** centers in the USA that utilizes this state-of-the-art technology.
