

# TENNSMITH CHEEK BENDER

Tensmith's Model DS24-20 cheek bender is a rugged tool built for increased productivity while getting the most consistent bends quickly.

This model's two-way trunnion design holds the bending apron steady at the base of the bend ensuring accuracy throughout the length of the sheet.

This machine can be bench-mounted and adjusts for bends of 1/4 to 7/8 inches, 24 inches long. Tensmith's cheek bender handles mild steel to 20-gauge.

Capacity, Mild Steel	20 Gauge 1.0 mm
