**To Darrell Steinberg,
Sacramento Mayor
Sacramento's City Council
915 I St # 5,
Sacramento, CA 95814**

Dear Mayor Steinberg,

My name is Jack Nordby and I am the spokesperson for the family of Charles Nordby. We are very confident that you and every City Council Member are already aware of our family's grievance against Raley's and the Teel family as well as the Law Firm of Downy, Brand, Seymour & Rohwer (DBSR) for their continued fraud against our father, Charles Nordby, the man who saved Tom Raley's stores from bankruptcy in the 70's.

As our family prepares to march on the Raley's stores to distribute our information about our father's story, we want to know where does the Mayor and Sacramento's City Council stand on these crimes committed by Sacramento's wealthiest and one of the largest law firms in Northern California? Remember, Fraud is a crime regardless of who commits it.

When was the last time a City Council, anywhere in the United States, has ever been faced with this kind of dilemma? Maybe never! And if you are the first, then it is important that you do what is right to set the precedent.

Please don't say that this is a legal matter, because it was a legal matter in 1994 until the law firm DBSR defrauded our father and the courts with the assistance of the late Judge Joe Gray who showed Charles Nordby, with his unfair and fraudulent rulings, that he wasn't at all in favor of providing justice in his courtroom for our father who spent his entire life getting justice for others.

Because the justice system in Sacramento failed Charles Nordby, this is no longer a legal matter, but rather a corruption matter. Corruption in the City of Sacramento, of which you are the overseers of.

All of this is very well documented in the paperwork in the Sacramento courts that is also replicated in our possession for its preservation and protection. Because of this, our family can say, print and publicize our father's story, because it is all true. And everyone knows it's true! Including Joyce Raley Teel, along with James Teel and Michael Teel, who have witnessed everything since 1973.

Does Sacramento's Mayor and the City Council close their eyes to this crime, like everyone has done, because it is the wealthy Teel family that's involved? Remember, their wealth is from an act of "fraud". Fraud is a crime regardless of a person's wealth or status. Let's not ever forget the infamous Bernie Madoff, who was sentenced to 150 years for his crimes of defrauding others.

When you read our website and specifically the details of Charles Nordby's success throughout his entire life, you will begin to see the scope and the depth of what he has accomplished, not only at Raley's Supermarkets, but in every aspect of his life which could be unmatched by anyone in California. Considering our fathers expertise and service in all of California, and primarily in the S.F. Bay Area, Sacramento and Northern California, he has changed the landscape and success of many of California's retailers. Our father should be a hero.

Though Raley's is the pinnacle of his lifelong series of successes, the ripple effect from Raley's success alone makes him one of the most accomplished men in all of California. And instead of being a hero, he has been villainized because his story changes everything previously stated, written and published about Tom Raley and the Teel Family success and how they obtained their wealth. Defrauding our father!

Like Ronan Farrow, the reporter who broke the Harvey Weinstein story, he makes mention that he came against the Weinstein "Machine". Weinstein's machine was his power and money. His "machine" was going to protect him from his perverted sexual crimes so that he would not be investigated, or his crimes publicized and that he would never face his accusers and see justice. Well, Weinstein's machine came to a screeching halt, and he and his protectors (the Machine) are now being justifiably exposed.

We see a "Machine" in Sacramento. It is called the Raley/Teel family "Machine". Like Weinstein, the wealthy Teel Family have been using their machine to protect themselves from facing the crime that has been committed against our father and his legacy. They have never had to face their accuser(s) nor have they ever been served justice. But their day is coming very soon. Their name, power and wealth will no longer help them because the truth about them is coming out. And we will make sure that they and their machine will be exposed like Harvey Weinstein and his machine.

Is the Mayor's office and the Sacramento City Council a part of their "Machine"? We hope not! But we will know if you are by how you respond to this very direct letter. We have discovered so many players are in their machine. And like the Weinstein story, he used his players to help him cover up his crimes, and so do the Teel's.

We highly recommend that Sacramento's City Hall examines the facts and determine where you stand.

If you don't speak up or do something, then you will be a player in this ongoing crime. If you aren't being controlled by the Teel's, then it obviously appears that you are condoning what the Teel family has done to our father, his name and his legacy. Please don't be a participant in the continual villainization of Charles Nordby. Sacramento's true hero.

What would you do if your father or someone you loved, was having their lifelong successes and legacy snatched away by the rich and powerful? If you wouldn't do what we are doing, then you are lacking empathy. And those who have no empathy do not belong in public service.

Our family wants to know, how can Sacramento's Mayor, Darrell Steinberg, and City Council help us in resolving this ongoing matter?

We are looking forward to a response to this letter from you.

Respectfully,

Jack Nordby,
The Family of Charles Nordby
