

COLLABORATION FOR THE PLANET

FULL SPECTRUM DISPOSABLE CARTS

DISPOSABLE • RECYCLABLE • RECHARGEABLE

PRODUCT OVERVIEW

Introducing Vermont's first eco-conscious vape cart – a powerful full-spectrum experience in a format designed for the future:

- Rechargeable via USB-C
- Recyclable, not going into Vermont Landfill
- Made with corn stover-based biodegradable PLA. That means its body naturally decomposes, leaving Mother Earth smiling. This innovative cart is filled with CO₂-extracted, sun-grown flower, preserving the full terpene and cannabinoid profile of each strain.

CURRENT STRAINS

- Granny Candy – by Green Mountain Sativa
- Pineapple Muffin – by Altitude Drops

Each strain is single-sourced from seed to shelf. Grown on regenerative Vermont farms and formulated for a clean, flavorful inhale with a true-to-flower effect. Packed full of delicious terps and all the naturally occurring cannabinoids!

WHY IT MATTERS

- Reduces battery waste with rechargeable tech
- Designed for closed-loop recycling
- Uses biodegradable and repurposed materials
- Helps your dispensary stand out with earth-friendly innovation

MSRP / WHOLESALE

- MSRP: \$50-\$45 (with returned rebate)
- Wholesale: \$20.00

Delivery Available Statewide

Want to sample it first? Just ask. We're happy to swing by and give you one.
