FROM START TO FINISH, WE EXCEL TOGETHER.

For over 22 years, we've worked alongside leaders across industries and around the globe—training, coaching, and accelerating performance. And through it all, one truth has become clear: **We get good.**

We sharpen our skills—prospecting, questioning, presenting, closing, delivering. But despite our expertise, we're often seen as just another option. The result? **Commoditization. Price pressure. Slower growth.**

Differentiation is your greatest force multiplier

Your team at **PREDICTIVE WINS**, works with your Sales Drivers to build greater differentiation—through real-world training, practical insights, and AI-powered performance tools that help us stand out.

From the first call to the final close—and through every customer interaction—we help drive momentum and make sure our value shines through.

But we also know **differentiation isn't just a sales strategy**. It's a mindset—and a **culture**.

Everyone who touches the customer plays a role in reinforcing what makes us distinct. So, we don't just teach it—we help embed it into how we work, lead, and win.

Because we're not here to simply compete. **We're here to finish in first.**

EMPOWERING PEOPLE. ELEVATING PERFORMANCE. EXCELLING TOGETHER.

In Racing and Sales, Grit Matters—But Only One Pays for Second Place.

We don't get paid for second place.

That's why your team at **Predictive Wins** is powered by tenured Performance Drivers with decades of in-the-trenches experience in sales, leadership, and strategic growth. We've worked shoulder-to-shoulder with professionals across industries, markets, and verticals—giving us deep insight into what it takes not just to compete, but to win consistently.

**Our mission is simple but powerful: help your team not just show up in the marketplace—
but stand out, step ahead, and dominate.**

We don't believe in one-size-fits-all solutions. We coach, collaborate, and equip your organization with practical strategies, proven tools, and high-impact skillsets that translate into real results. Our approach is built to:

1. Increase the **volume and velocity** of your pipeline
2. Turn **second-place finishes into firsts**

The material is immediately internalized because of the way in which Michael delivers the content."

SYNERGISTIC NEGOTIATIONS

PREDICTIVE WINS Synergistic Negotiations go beyond simply closing deals—they're designed to reshape how we think about value creation and lasting partnerships. In a world where most negotiations default to short-term wins and tactical maneuvers, we take a different approach: we build synergy.

When negotiation becomes about more than winning—when it becomes about aligning goals, uncovering shared interests, and driving mutual success—we enter a state of interdependency. That's where real influence begins. And that's how long-term, trust-based relationships are built.

This training is a strategic blend of mindset, method, and mastery. You'll learn to:

- Use a proven Predictive Wins negotiation template to structure your approach with clarity and impact
- Elevate discovery conversations to uncover deeper motivations and relationship opportunities
- Lead both internal and external negotiation meetings with greater confidence and control
- Prevent objections before they arise and navigate resistance with skill
- Identify behavioral styles and adapt in real-time to build credibility and connection
- Shape and present value propositions that resonate and differentiate
- Recognize and counter common negotiation tactics while maintaining integrity and momentum

NOTE: The core of this experience is a progressive, custom role-play that mirrors your real-world dynamics. It's not just a learning exercise—it's a catalyst for breakthrough thinking, behavior, and results.

This isn't negotiation as usual. This is negotiation reimaged for leaders and sales professionals who don't just want to win—**they want to transform the game.**

In the words of a fellow negotiator:

"I had the pleasure to attend a 2-day workshop focused on Negotiation led by Michael. His passion, energy & experience are incredible. The lessons learned from his workshop will definitely help me further my skills not only in the workplace when I am face to face with a customer but also in my personal life"
