

How To Draw GNOMES

Gnomes are popular little fellows, particularly around the Holidays.. They are very easy to draw when you use this simple step by step process.

Step 1: With a Graphite pencil, Measure off and Draw a Box approximately 2" x 2.5", As shown and divide the box in half at the 1.25" mark.

Step 2: Draw a triangle above the line and the Body shape below it, Allow the triangle to extend past the body shape on both sides.

Step 3: Add a curve starting below the line on the right side of the triangle and curve slightly above the line down below the line on the left.

Step 4: Give Our Gnome a Gnose. Draw in a simple oval or circle in the centre of the Curve to create his Gnose.

Step 5: Draw in the beard as shown, it can be ragged or smooth!

Step 6: Give the Little fellow a Moustache if you like! Then erase all of the extraneous Lines (The ones ya don't need)

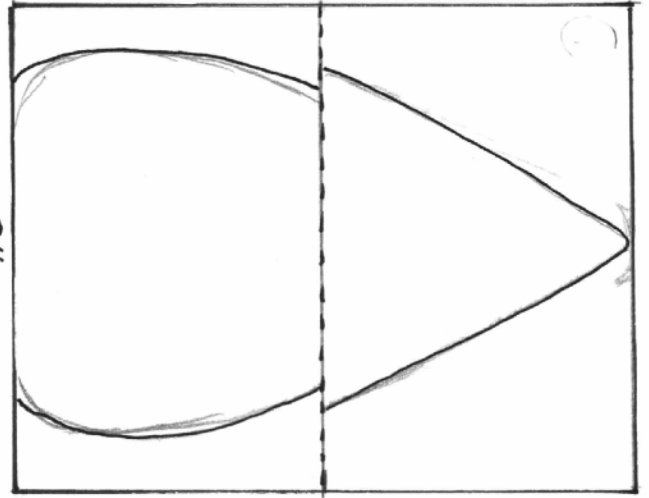

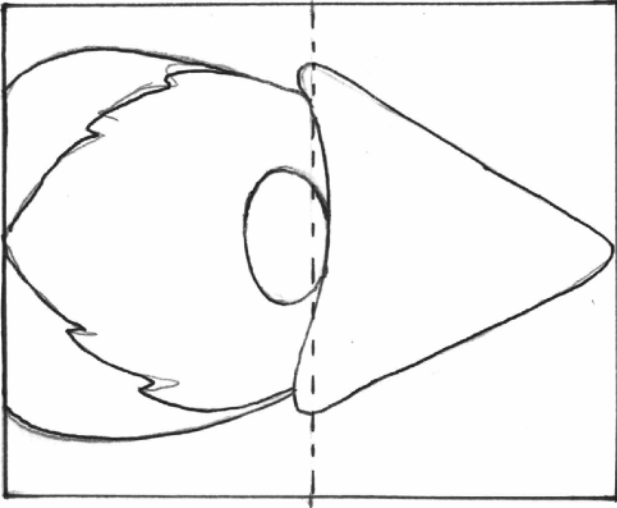

Step 7: Add details to his hat with Whatever you like (or not at all)

This is a fun way to create a unique little fellow to add to your Holiday Painting Projects!

ENJOY!!
