

Happy Spring Egg Pins

These fun and super simple Egg Pins are full of colour and visual texture! easy for any skill level and only requires some basic supplies.

You will Need:

www.stockade.ca
RR9377 Egg shape 2.5"

Decoart Americana Acrylic
Banana Cream, Bubblegum Pink, Aqua Sky,
Asphaltum, decoupage matt,

Dynasty Black Gold Brushes
1/2 Angular Shader

Stampendous
Vintage Note Stamp CRP249

Misc:
Tacky Glue, Small paper flowers, 4" foam
Roller, 24Kt Gold Leaf Pen, Staz-on Stamp
Pad in Black

I Used a HD Foam Roller to create the blender background. Place a generous dollop of each colour (Aqua Sky, Banana Cream, and Bubblegum Pink) on the palette, leaving about 1 inch between them. Load the roller by rolling through all three at once. roll out until all three colours join and blend. Then roll each egg with the loaded roller. Let it dry well.

Stamp the eggs with the Vintage Note Stamp and the Staz-on pad.(they do not need to be clear or perfect.) Let the ink dry very well before continuing. (15 mins should do it.)

Shade the edges of the egg with a float of thinned Asphaltum. Let it dry. Use the 24 Ky Gold paint pen to paint the edge of the eggs (let it over lap onto the from of the egg , just a little) Let this dry well.

Cut out the "Happy Spring" in about a 3 inch strip. and float the edges of the small banner with Aqua Sky. Let it dry.

Using the Matt medium, adhere the banners to the eggs(I like the diagonal but however you choose to position them is just fine) First base the entire egg with the matt medium, Lay the banner onto the surface and then press it firmly into place. Once dry, apply a light coat of the matt medium over the banner. Let it dry.

Spatter the eggs with thinned Banana Cream. Let dry.

Glue several small paper flowers to the egg for decoration , using the tacky Glue. Let them dry. Sign the back of the pin with the date, or "pay it forward".

Glue the pin back onto the finished eggs, attach to the card when finished.

Print these cards on Card Stock, Cut them out and pin your RACK Pins to them. I use a hole punch to make it easier. Space the holes to accommodate the pin size.
