First things first, we need to get back to basic. This class will be speaking on topics that might be annoying to you in the beginning, but very necessary to hone your craft. Things like journaling, learning about spiritual tools, etc. To not feel overwhelmed with all the information coming at you. We are not just going to jump to the juicy stuff; like a college; we must learn the core requirement first and foremost. So, this month is all about the basics, now let us get started!
