Happy New Month, Everyone!

The month of June felt emotionally draining for some, and the fun is not over. June brought Jupiter in retrograde as well as Neptune. And oh boy,

I saw celebrities being exposed left and right. Luckily Mercury went direct on June 22nd, so communication went back to being better with fewer mishaps in communication. We moved into Cancer season with Pluto, Saturn, Jupiter, and Neptune all in retrograde. I advise everyone to do grounding work because you will be forced to see things as they are to let the old die; this way, the new can be reborn. Saturn lets us know that work still needs to be, working on ourselves, especially our fears, self-development. We have Jupiter, the ruling star of spiritual, religious beliefs, and philosophy in retrograde. These planets will be in retrograde during Leo season as well.

RETROGRADES AND SUMMER 2021

Your monthly digest of spiritual knowledge

NEW AND FULL MOON OF JULY 2021

Hold on tight because
they chaos continues,

Jupiter is in a retrograde position for three and a half months. During this time, people are in a battle of conviction, and in the end, they will come out stronger with their belief or catapulted to a process of renewal and change. Jupiter, in retrograde, will feel very distressed because our entire value system is put into question, and the foundation of our beliefs is shaken. At the end of it all, thanks to all the hard work, we can turn that anxiety into security, reinforcing our faith, and improve our capacity to influence.

NEW AND FULL MOON OF JULY 2021

New moon in Cancer

July 10th brings us the New Moon in Cancer, and July 24th brings Full Moon in Aquarius, which will be in Leo SNZ. As some of you may or may not know, I am a Cancer baby, and this is my Birthday month. Cancer season is all about family and home. So this new moon in Cancer should be about your intentions with your family. Ask yourself how do you want your home to feel serene, playful, creative, inspired? Do you feel safe and calm? What can you change to create the environment you want for yourself? How would you like your relationship to be between your family and friends? Authentic? Supportive? Loving? During Cancer SNZ, begin your morning with a list of things you are grateful for because Cancer SNZ can be emotional, you want to be filled with positive emotions, not negative ones. Evoking feelings of gratitude can help you stay in high emotional vibration throughout the day. First thing, write or say ten things you are grateful for receiving. And in the evening start a tea ceremony, this is a time of relaxing your mind, body and soul. Here you are creating a self-care routine.

NEW AND FULL MOON OF JULY 2021

Full Moon in Aquarius

Now, for the Full Moon in Aquarius, we celebrate the ancient use and knowledge of herbs. The full moon in July is called the Wort Moon or Hay Moon. We would gather the herbs and replenish the medical plants to be dried in the summer heat in ancient times during this period. The Wort Moon in Aquarius is the moon to focus on hope and progress. Here you can allow your self-expression to bloom. Hope inspires feelings of joy, Leo teaches us about our individuality. The opposite sign, Aquarius, shows us how we can come together in a community. Share your gifts to the world. Don't worry about being the best; look for opportunities to participate.
