HAPPY NEW MONTH (AUGUST) AND HAPPY LEO SEASON! Man, I hope you all were able to leave Cancer season with your emotions intact, lol. We are now in August, and we have been in Leo season since July 22nd. August is a month that excites me because of Lions Gate Portal, which is one of the luckiest days of the year. I will touch on this topic in detail, so don't worry. This month will be particularly special because we have the New Moon in Leo, the Corn(Full) Moon in Aquarius, also the first quarter moon is in Scorpio, and the last quarter moon is in Taurus. But to make things even better, we are in Jupiter retrograde but remember that there are three other planets in retrograde. The month is ripe for manifestation, so do not miss out because you can make the impossible possible when this portal is opened, and Jupiter is in retrograde. Now let's make magic happen!

RETROGRADES AND SUMMER 2021

Your monthly digest of spiritual knowledge

Retrograde

For August, we have four planets in retrograde. Those planets are Saturn, Jupiter, Pluto and Neptune. Let's lightly touch on these planets and the effects they have when in retrograde. Now most of these planets stay in retrograde until October except for Neptune it goes direct in December.

Saturn

Those born under this sign of Libra, which planet Venus is ruling, are considered to be under the grace and blessings of Saturn. Saturn is regarded as a teacher and the planet of justice who punishes their students when they do wrong and reward them for their good Karma. Saturn is also associated with the longevity of an individual. Saturn believes in strictness and discipline. **YOU MUST WORK.** When Saturn transits in a retrograde motion, the karmic debts are sorted out. There might be quarrels with your siblings and family. (AstroSage, 2021)

RETROGRADES AND SUMMER 2021

Your monthly digest of spiritual knowledge

Jupiter

Jupiter is the planet associated with the principles of growth, healing, prosperity, wealth, miracles and spiritual success.

Jupiter is a significator of good luck and fortune and is also considered a very kind and benevolent planet. (AstroSage, 2021)

That's not all Jupiter governs long distance and foreign travel, big business (we like that), higher education, and the law. And we have the Lions Gates Portal happening; big things are coming.

Pluto

Scorpio rules Pluto, and though this planet might be a dwarf to astronomers to astrology, it looms as more extensive than ever.

Pluto represent profound psychological transformation and the start and end of the phases of our lives and historical events.

During this retrograde, you will experience blinding moments in which you suddenly see your life in an entirely new light and decide to change everything. The planet's action brings to light things hidden in the depths of your subconscious, releasing dormant forces and cause your suppressed energies to erupt suddenly. So take this month and use it to transform yourself entirely.

Neptune

Lastly, we have Neptune, the planet that stays around it seems for the longest and doesn't come to play when dealing in reality. Neptune is ruled by Pisces and is the planet of mystery and illusion. Neptune represents your dreams, life and your mystic qualities. It is the planet of bewitchment. Neptune's influence brings a great depth of understanding, ESP ability, and creative genius. When in retrograde, Neptune slowly rips the veil from your eyes to see things for what they really are.

SUMMER RETROGRADES

A time to manifest ,

With that being said, this will be a month where we are tested and rewarded. With Saturn in retrograde, we will either be punished or reward due to the karmic energy we are facing, so your character is critical here. Jupiter will bring us much success if we do the work(Saturn); this planet is about expansion and good luck. You can bring forth tremendous transformation during the Lions gates since Pluto is also retrograde. And with all of that said, Neptune brings bewitchment; this is when you can manifest with clarity because Neptune, in retrograde, removes all illusion.

NEW MOON & LIONS GATE PORTAL AUGUST 2021

Your monthly digest of spiritual knowledge

New Moon and Lions Gate

Wow, I can not stress enough how significant this new moon will be; 8/8 the number alone symbolizes abundance, power, willpower, authority, money and balance. 8/8 is when the lion's gates portal is at its peak, Jupiter is in retrograde, and this year lion's gate falls on the new moon in Leo. Yasss honey, we need to manifest and do it big and extravagant this is the time.

So we have a perfect storm for manifesting and big. Now let's talk about what exactly is lion's gate is. Lion's gate is when the sun is in its home sign in Leo, while the star Sirius rises in the skies, which becomes visible on or around 8/8 every year. And within numerology, the number eight is amplified on this date every year. So this day brings about an auspicious day for manifesting and turning your dreams into reality.

Remember that the ancient people have been following the star Sirius and its alignment with the sun; this was a significant event in ancient culture. For example, civilizations like the Dogon tribe of Africa, Sumer, and Ancient Kemetic; all tracked the Sirius star system across the skies without our "advance technology." Sirius alignment with Earth coincide with the Orion constellation aligning perfectly with the Pyramids of Giza; this creates a trinity of alignments that opens the lion's gate portal. And with the new moon occurring on 8/8 of 2021, this lion's gate portal is slated to be more spiritually powerful than usual.

So take advantage of the lucky, highly spiritual lions gate portal.

Tantric Tonic- Solar Infused

These infused oils aren't as potent as essential oils, but you can create your own blends by infusing the botanicals you choose. Select flowers and herbs of your choosing by taking a walk in nature or buying at the store, ones that align with your magical intentions. Use your color magic by selecting green plants and crystals for financial manifestations; white flowers and quartz crystals for fresh starts and new beginnings; red, pink, and orange for love and passion. Combining flowers and herbs based on their combined magical qualities, combine rose, lavender, and jasmine with basil, thyme and yarrow for love. Honeysuckle, ginger and bay leaves can be utilized for financial security. Gather night-blooming flowers during lunar shadows for psychic and intuitive enhancements.

You must completely dry your herbs and flowers before making the tonic, for fresh botanicals contain water and turn the oil rancid. Cut the dried herbs and flowers into small pieces and crush with a mortar and pestle; now, place crushed pieces from the mortar into plastic and use a rolling pin to crush the ingredients further. Using a quart size glass jar, fill with dried herbs and flowers, leaving a two to three-inch space at the top for the oil to cover. Fill the jar with natural oil(olive or jojoba), making sure to cover herbs by at least one inch. Seal the jar with a lid and shake; while shaking, ~~think or speak out loud your intention~~

Place your tantric tonic on a nice, sunny windowsill. Shake once a day while bringing our intention to mind. After three weeks (three is the number of creativity, three weeks equal three times mystical number seven), strain oil through a cheesecloth to remove herbs. Pour into a clean jar and store in a dark, cool place for up to one year.

Read the entire post first to know what items you will need before you begin your magic work.
