Pannakombu	1.2 km
Manapparai	8 km

Design Specification for Entrance Elevation

We require a vertical entrance elevation structure designed in the form of a cuboid with the following dimensions:

- Height: 30 feet**
- Front length: 3 feet**
- Depth (side width): 1 foot**

The front face of the cuboid should prominently display the site name "SM Elite Avenue" in an elegant, modern font.

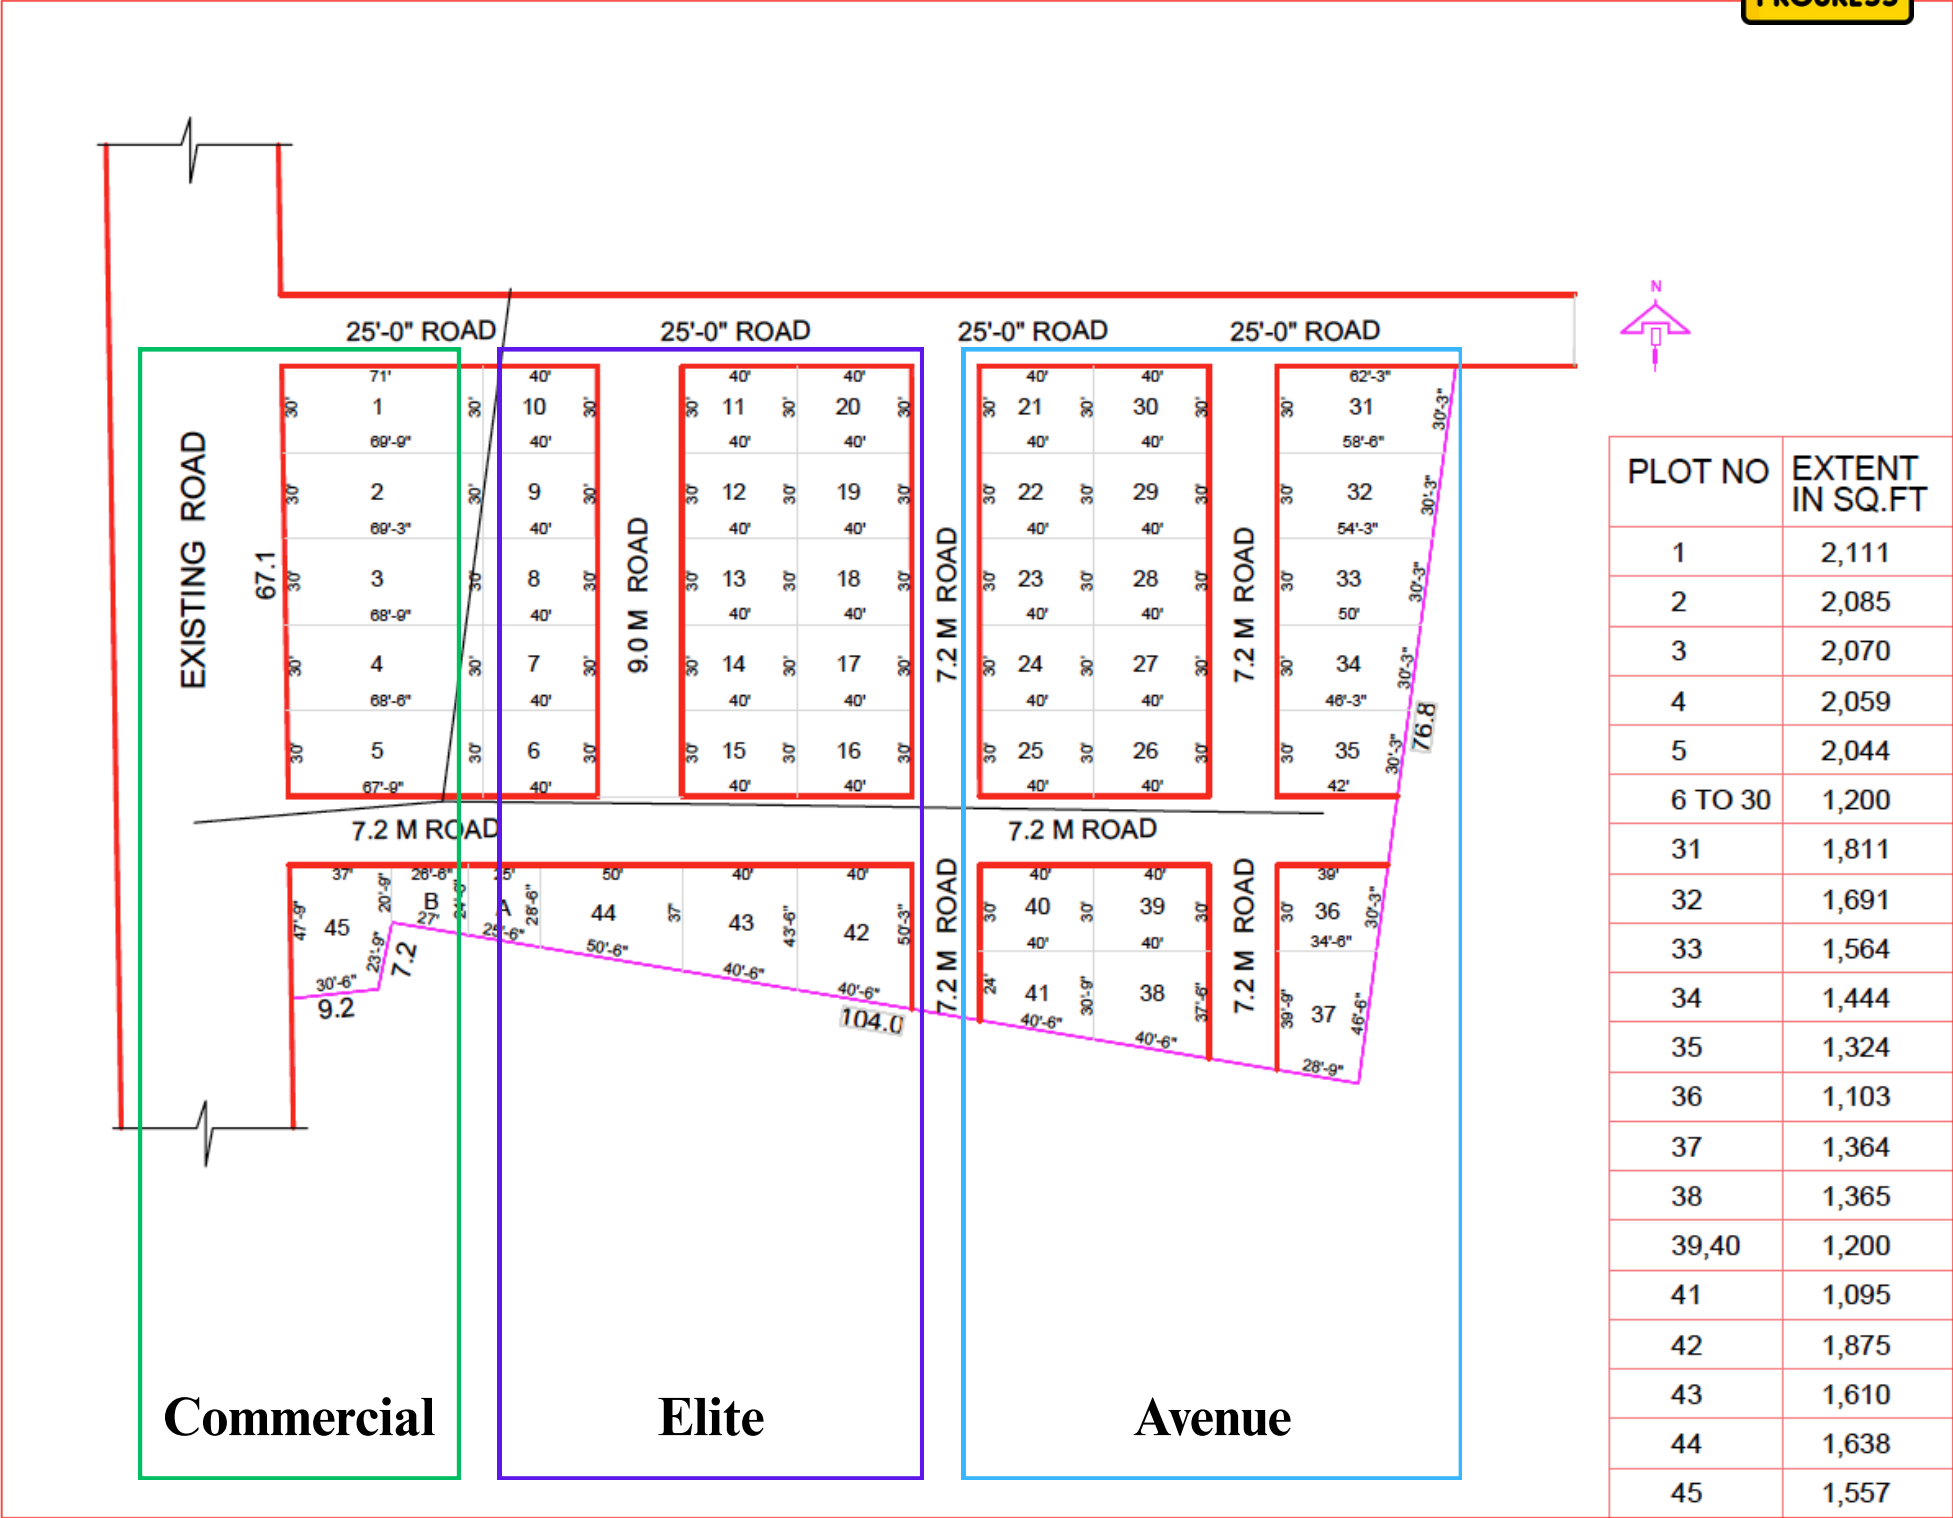

Additionally, a Lord Murugan Vel symbol should be incorporated within the elevation structure at a 45-degree slanting angle, featuring the Thiruneeru Pattai (three white horizontal lines) with Kungumam (red dot in the center) clearly represented on the Vel.

The overall look should be clean, simple, and spiritual while maintaining a premium appearance.
