ELEV8 Adaptogen Super Blend

At the core of ELEV8 is a powerful adaptogenic formula that blends ancient Tibetan, Russian, and Chinese medicine together in a way that amplifies your body and mind. This potent super blend can also fortify your immune system and enhance your body's natural ability to resist the damaging effects of stress.

Reishi Mushroom (also known as Ganoderma or Gano) has a long history of use for promoting health and longevity in traditional Chinese medicine. Called the "Wonder Herb", it is a potent immune system regulator and has antioxidant, anti-inflammatory, and anti-cancer properties. Research shows it rapidly oxygenates the body and automatically adjusts pH to a healthy balance at the cellular level.

Chaga, known as the King of Medicinal Mushrooms, have been used for thousands of years in traditional medicines in the East for its remarkable health-enhancing benefits. Found to be a powerful adaptogen, it helps protect the body from the effects of stress. Considered a Super Food, it also stimulates and regulates the immune system, has known anti-inflammatory effects, and may help inhibit cancer progression.

Cordyceps, a rare and exotic medicinal mushroom from the high Himalayas, has been used by the Tibetans for over two thousand years to combat fatigue, boost vigor, and sustain energy. Studies show that it has potent antioxidant properties and increases oxygen utilization, aerobic capacity, and cellular energy. It strengthens the immune system and improves stamina and performance.

Rhodiola Rosea, a nootropic and adaptogen, has been used in traditional Russian medicine for centuries as a mind-strengthening herb to reduce mental and physical fatigue and boost stamina, focus, and mental clarity – even when under stress. Studies have found that it positively supports brain function and heart health. Plus, it helps balance mood and the levels of cortisol (a main stress hormone) in the body.

ELEV8 Nature's Energy & Clarity Blend

ELEV8's Energy and Clarity Blend naturally increases energy levels and stamina, enhances mental clarity and mood, and boosts cognitive performance. This powerful super blend is packed with nootropics and other natural stimulants to help clear the fog from your brain and fill you with a calm, focused energy – rejuvenating and revitalizing your mind and body.

Guarana is a plant from the Amazon whose seeds have long been brewed by Brazilian tribes for its energy properties. It has among the highest concentrations of natural caffeine in any plant. Also, it has been shown in clinical studies to improve memory and alertness as well as mood.

Bacopa Monnieri is a nootropic herb that has been used for centuries in traditional Indian (Ayurvedic) medicine for longevity and cognitive enhancement. It is a strong adaptogen and antioxidant and has been found to reduce stress and anxiety while improving cognition and memory.

L-Theanine is a relaxing but not sedating amino acid found in green tea that is synergistic with stimulants such as caffeine as it can "take the edge off". Research results show that it can notably increase feelings of relaxation without drowsiness as well as help relieve anxiety and stress. It also has nootropic benefits and can help reduce brain fog.

Green Coffee Bean – from unroasted coffee beans – contains natural caffeine but is also rich in chlorogenic acid, which is considered to have antioxidant properties as well as health and cognition benefits. Studies also find that it may lower blood pressure and promote weight loss. It's also a natural nootropic and helps wake-up the brain.

Yerba Mate, made from the naturally caffeinated and nourishing leaves of a South American rainforest holly tree, has been consumed as a traditional tea for centuries due to its rejuvenating effects. It is a balanced natural stimulant found to promote energy, mood, and focus without jitters.

Yohimbine, made from the bark of an evergreen tree found in Africa, is a natural general stimulant that increases sympathetic nervous system activity. This herb is also often used to support sexual health as well as for athletic performance, weight loss, exhaustion, and depression.

B Vitamins – Thiamine (B1), Riboflavin (B2), Niacinamide (B3), D-Calcium Pantothenate (B5), and Methylcobalamin (B12) – are essential for various metabolic processes and help the body stay energized throughout the day. Together these vitamins are also often used as a natural mood-booster.

ELEV8 Whole Food Nutrient Blend

ELEV8's Whole Food Nutrient Blend is made from real **vegetables and fruits** with known health-supporting, nutrition-rich properties: Spinach, broccoli, carrot, tomato, beet, shitake mushroom, apple, cranberry, cherry, orange, blueberry, and strawberry.

These whole food concentrates help provide the proper balance of nutrients for the body. They are packed with natural organic compounds that are essential for proper health but that are often missing from modern-day diets.

ACCELER8 Restore

ACCELER8 Restore supports the body in naturally restoring a healthy balance and releasing extra weight. When your body is over ridden with toxins, it can feel lethargic, bloated, and be plagued by a myriad of other issues. ACCELER8 Restore is made of three proprietary nutritional blends that nourish the body with health-restoring nutrients and help renew your ability to achieve and maintain optimal health and weight.

ACCELER8 Restore contains all-natural phytonutrients and organic compounds known to have a gentle detoxing effect that naturally cleanses the body and promotes digestive health and vitality. In addition, it is packed with high quality, naturally stable prebiotics, probiotics, and enzymes that help replenish a beneficial level of good bacteria in the gut microbiome, which is crucial for good digestion, can help with weight loss, and can boost immunity and mental health.

ACCELER8 Sleep

ACCELER8 Sleep promotes mental and physical relaxation and improved sleep. Stress on the body spikes cortisol levels and decreases serotonin – both of which can negatively impact sleep quality and cause weight gain. ACCELER8 Sleep is formulated with quality, natural ingredients that work harmoniously to naturally balance serotonin and lower cortisol, which helps the body feel more relaxed – mentally and physically – and can facilitate weight loss.

ACCELER8 Sleep can also aid you in falling asleep faster, sleeping more soundly, and waking feeling well rested without grogginess. Getting a good night's rest is one of the best things you can do for yourself. Adequate sleep is an important part of a healthy lifestyle and can benefit your heart, mind, weight, and more. It has even been found to be as important to health as exercise and diet.

Lose weight and sleep great... You'll love how you look and feel when you wake!

100% Natural, Bioavailable Phytonutrients

Every stick of GR8 KIDS contains the natural plant-derived vitamins (phytonutrients) of 4.5 servings of whole food fruits and vegetables. Because our bodies have evolved to utilize this form of vitamins, they are highly bioavailable to our bodies and our bodies can use them with high efficiency.

The difference in nutrients from whole foods versus synthetic vitamins is night and day. Whole food derived vitamins are in their complete form and are much more bioavailable and usable by the body.

A good example is Vitamin C. Most Vitamin C supplements contain only Ascorbic Acid or a less acidic version called Ascorbate. But Ascorbic Acid is NOT Vitamin C. It only represents the outer ring that serves as a protective shell for the entire Vitamin C complex. Real Vitamin C found in whole foods also contains Bioflavonoids, Rutin, Factor K, Factor J, Factor P, Tyrosinase, Ascorbinogen, as well as Ascorbic Acid.

When you take only Ascorbic Acid found in synthetic Vitamin C tablets or powders, your body must extract all the other components of the full Vitamin C complex from the body's tissues in order to make use of it. But if your

body does not have adequate reserves of the other components, Ascorbic Acid itself does not provide any of the health benefits that the full Vitamin C complex does; so your body just eliminates the unused Ascorbic Acid through your urine.

The Whole Food Nutrient Blend in GR8 KIDS captures the complex nutrients and phytonutrients from fresh fruits and vegetables. It is 100% natural and derived from whole food plants.

GR8 KIDS is nutritionally dense; has optimum bioavailability and biosorption; and has a high uptake into the body – making it a great, healthy supplement for the body to use. Plus, it is shelf stable and involved no chemicals, synthetics, or excipients in processing.

*Power up your work,
study, sports, and play
with nutritious, delicious

HYDR8 Product Details

Hydrate with Alkalized Water!

Natural Coral Calcium Mineral Supplement

Hydrate your body with great-tasting mineralized, alkalized water. HYDR8 contains a unique, 100% pure and natural mineral complex found only in the pristine ocean near the Okinawan Islands that imparts remarkable health benefits. HYDR8 is sustainably sourced from deep sea fossilized coral deposits.

HYDR8's easy-to-use sachets transform plain drinking water into mineral-rich, alkaline water supercharged with over 70 ionized trace minerals that are vital to the body for optimal health and functioning. Also, the higher alkalinity of HYDR8 water may help restore pH balance in the body by neutralizing acidic conditions that can lead to disease and illness. Plus, it gives the water a pleasing natural taste.

Reported Benefits May Include:

- Mineralizes and Alkalizes Regular Water
- Supercharges Water with Over 70 Ionized Trace Minerals
- Gives Drinking Water a Pleasing Natural Taste
- Helps Restore pH Balance in the Body
- Supports Optimal Health and Functioning
- 100% Pure, Natural, and Sustainably Sourced

Ingredients

Serving Size: 1 sachet

Amount Per Serving

Okinawa Coral Calcium Granules	995 mg
L-Ascorbic Acid (Acidulant)	5 mg

DIRECTIONS: With clean hands, add 1 unopened HYDR8 sachet to a clean BPA-free bottle of drinking water. Seal cap and shake for 10 seconds. Let sit for 10 minutes and then shake again for 10 seconds. Drink within 4-6 hours. Discard used sachets. Do not eat or swallow sachets. Recommend washing water bottle after each use. Tightly fasten package zipper to avoid oxidation of unused sachets.

CAUTION: Keep sachets out of the reach of children.

DISCLAIMER: Statements have not been evaluated by the U.S. Food & Drug Administration. Product is not intended to diagnose, treat, cure, or prevent any disease. Results may vary.

Commitment to Sustainability

HYDR8 is made from 100% pure Okinawa Sango coral calcium granules harvested from grains of fossilized coral deposits from the deep-sea ocean floor off the coast of the Okinawan Islands in Japan. No live coral is harvested. Great care is taken during harvesting so that living coral is not endangered.

We use environmentally friendly collection methods to harvest this fossilized coral. The coral sand is carefully gathered and cleaned. After cleaning it is then ground so that when added to water, a unique patented process allows the minerals to be absorbed into the water. This exceptional process alkalizes the water.

Health Benefits of HYDR8 Alkalized Water

The coral in the reefs around the Okinawan Islands acts as a natural filter and mineralizes the water. The sand-like grains of coral calcium have been saturated with the ocean's most valuable minerals for thousands of years. HYDR8 does the same thing for your drinking water – imparting remarkable health benefits

These may include: (1) optimize hydration at the cellular level; provides improved hydration by allowing the water to be more easily absorbed by the body; (2) natural detoxifying and cleansing; helps improve the body's ability to absorb important nutrients (3) antioxidant and anti-aging properties; helps to neutralize free radicals and slow the effects aging; and (4) rich in ionic trace minerals; helps optimize energy levels, enhance performance, and improve stamina.

HYDR8 transforms plain water into mineral-rich, alkaline water supercharged with vital minerals in an ideal balance for the body. It releases beneficial ionized trace minerals into the water that can be easily absorbed and used to support the body's metabolic functions. And because Okinawa coral calcium is naturally porous, it is absorbed by the body easier and faster than calcium carbonate supplements.

HYDR8 also helps restore pH balance in the body by transforming the water you drink into a powerful, mineral-rich alkaline beverage. The higher alkalinity of HYDR8 water helps neutralize acidic conditions in the body that can lead to disease and illness. HYDR8 also infuses the water with calcium, magnesium, and over 70 other naturally-occurring trace minerals that are vital to the body for optimal health and functioning.

Proven, Proprietary Goji Stem Cell Technology

REJUVEN8 from B-Epic is powered by a high-quality goji stem cell extract that has been found in multiple studies to revitalize the delicate, aging stem cells in our skin.

Our unique, advanced skin rejuvenation serum is based on an innovative, proprietary technology that enables the sustainable cultivation and large-scale production of goji plant stem cells to be used in a cosmetic formulation in order to improve the function of skin stem cells.

As we age, the production of collagen and elastin is reduced, which results in sagging, wrinkled skin. In addition, over time our skin stem cells naturally lose their regenerative properties, which further leads to aged, damaged skin.

Scientific research has found that the proprietary Goji stem cell extract used in REJUVEN8 revitalizes skin stem cell function and improves collagen and elastin production thereby rejuvenating and regenerating the skin.

Significant findings include stimulation of skin stem cell functioning, improved density of healthy fibers in the skin (epidermis + dermis), visible reduction of fine wrinkles and deeper lines, and the lifting and firming up of the skin (e.g., resulting in visibly more tightened, lifted, and contoured shape along jawline and neck).

The Remarkable Healing Power of the Goji

Goji (*Lycium barbarum*) plants are native to China and belong to the nightshade family. The red-orange berries that are harvested from the plant are one of the most famous superfruits in the world.

According to legend, goji berries were first discovered by a Buddhist monk, and it transpired that the monks who incorporated them into their diets lived longer than those who did not.

For hundreds of years, goji berries have been eaten in Asia for their medicinal and nutritive properties. Nowadays, goji berries are eaten all over the world, mostly in dried form, and there are various goji berry supplements on the market with the reported benefits ranging from anti-aging, immune boosting, and energizing to improved memory.

Because of the claimed health benefits in traditional medicine, the chemical compounds in the goji fruit, root, and other parts of the plant have been studied in some detail. Recent research has confirmed that the healing mechanism of the Gogi plant has a positive, healing effect on human skin cells – the power of which is harnessed in REJUVEN8.

Real Science, Real Studies, Real Results

The following are highlights from some of the studies conducted on proprietary Goji stem cell extract in REJUVEN8. The results are significant and, in all cases, greatly outperform placebo. Visible improvements over initial, untreated conditions can be seen in as little as one month; with even greater, sustained improvements with continued use over time.

Visible Smoothing and Reduction of Wrinkles

Twice daily treatment after two months significantly reduced the appearance of wrinkles in the eye area. Notably, not only did fine wrinkles below the eye appear smoother (see upper panel), but deeper lines were also visibly diminished (see lower panel).

Improvements in Skin Density

Treatment after 1 month significantly increased skin density by 6% and improved the collagen and elastin fiber structure of aged, sun-damaged skin.

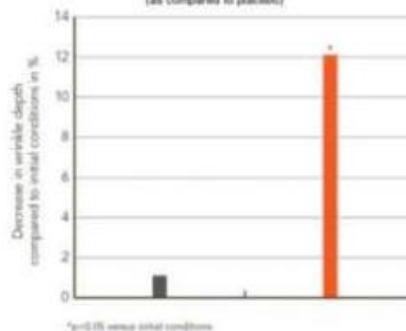

(as compared to placebo)

Decrease in Wrinkle Depth

Treatment after 2 months led to an average decrease in wrinkle depth of 11% compared to initial, untreated conditions and significantly outperformed placebo.
