

ADVENTURE IN EGYPT

Let me tell you what happened last month and how we were able to defeat the evil magician Imhotep and return the ANCH to Artemis.....

When we had killed the pirates, we found that Ajax had suddenly vanished from the ship without a trace. We did not know what had happened and could not find him.

Sad and downhearted, we decided to continue our journey to the coordinates of the mysterious island of Imtohep, complete our mission, and then continue searching for Ajax.

We did not know at that time that Artemis had taken him away from the ship during our fight

PHILOMENA

PRINCESS OF THE AMAZONS

"Ajax, faithful friend and lover of my daughter Philomena ! Come to me !"

"Artemis ! Forgive my goddess, but I must help Philomena and Deianera in battle."

"Yes, Ajax...you must! But not here and not now. These stupid and weak pirates are no opponents for my daughters and they have no chance.

Just look..... "

"I have armed them with the strength of the tiger, the ferocity of the wolf, and the sharpness of the eagle. Amazons possess the courage of the lioness from birth. They will complete this mission successfully and unscathed !

A much greater danger is approaching. Demon Steppenwolf has awakened his army and will go to war against the Amazons. I need you for the preparations on Lemnos.

Take these weapons and come with me"

PHILOMENA

PRINCESS OF THE AMAZONS

Finally, after 10 days at sea, they have reached Imhotep's secret island and drop anchor.

But when they want to leave the ship by dinghy, their breath is taken away.....

"What is it? Is this supposed to be a morbid joke? This is not an island, this is a NOTHING! My home on Lemnos is even bigger"

PHILOMENA

PRINCESS OF THE AMAZONS

Philomena and her companions decide to investigate the island more closely and go ashore.

They climb the stairs carved into the rock to reach the first platform.

The three warriors do not notice that they are being watched from the top platform of the island.

AYNAET, demon of destruction and servant of Imhotep guards the Island of Arrival.

Quietly she whispers: " They are here ... but not as expected !"

When the three women enter the first platform, Aynaet climbs into the well and disappears.

PHILOMENA

PRINCESS OF THE AMAZONS

The Amazons and Nefertiti carefully climb the wooden stairs to the top platform, their weapons drawn.

But they find only a magnificent chair and a well in which darkness is wafting.

Philomena steps forward first and climbs into the well. Slowly she disappears down into the darkness.

Deianera and Nefertiti follow her immediately and also disappear into the darkness.

PHILOMENA

PRINCESS OF THE AMAZONS

When the darkness ends, the three women lie unconscious on the beach of a wondrous island.

As if from nowhere, Artemis appears and observes them.

The goddess claps her hands, awakens the 3 warriors and activates the superhuman powers given to them.

They wake up after a short dizziness and find themselves on the beach of a wondrous island. A magically glowing forest borders directly on the sea. Immediately they set off for the island's interior.

PHILOMENA

PRINCESS OF THE AMAZONS

The forest makes a magical and enchanted impression and glows with brilliant colors as they walk further in.

Actually, it looks even beautiful

They reach a bridge behind which a purple dome of light can be seen. A mysteriously flickering ball of light is inside the dome.

The women are tired from their march through the jungle and the place looks safe. Here they will sleep a while and spend the night.

PHILOMENA

PRINCESS OF THE AMAZONS

It does not take long until Deianera bends over her beloved Philomena and kisses her passionately. Curious and excited, Nefertiti watches the hustle and bustle of the two Amazons.

With a friendly smile Philomena invites her to join in...

After several hours of passion, excitement and mutual satisfaction, the three women fell into a deep sleep, exhausted but happy.

PHILOMENA

PRINCESS OF THE AMAZONS

Philomena awakens first and dresses, takes her weapons and wants to explore the area a bit. She is horrified to discover that she cannot leave the violet Dome of Light. She bangs her fists against the light barrier, but it is as solid as a wall.

They are trapped ...

Philomena examines the interior of the dome and tries to find a way out. She quickly realizes that the glowing sphere is the only interesting object. Philomena uses her superpower, the eagle's sharp view and examines the sphere. One spot looks different to her and she touches it with both hands.

In a flash of purple light, everything around her fades away and it all goes dark....

PHILOMENA

PRINCESS OF THE AMAZONS

When Philomena can see again, she is inside an Egyptian tomb with Deianera at her side. But where the hell is Nefertiti?

Hectically she looks around when suddenly a booming voice sounds and Deianera with anger in her eyes points into the depth of the tomb vault :

"Welcome Amazons ...to your tomb !"

"You have escaped my pirates. But here your journey is over. Your companion and throne heiress is already my slave and will make me the new ruler of the kingdom on the Nile by marriage.

You two are worthless to me. I even wanted to send you back to your ship. But my master Steppenwolf ordered me to kill you. So choose how you will die....on the spot in fire or in battle against my undead mummies.... choose NOW !"

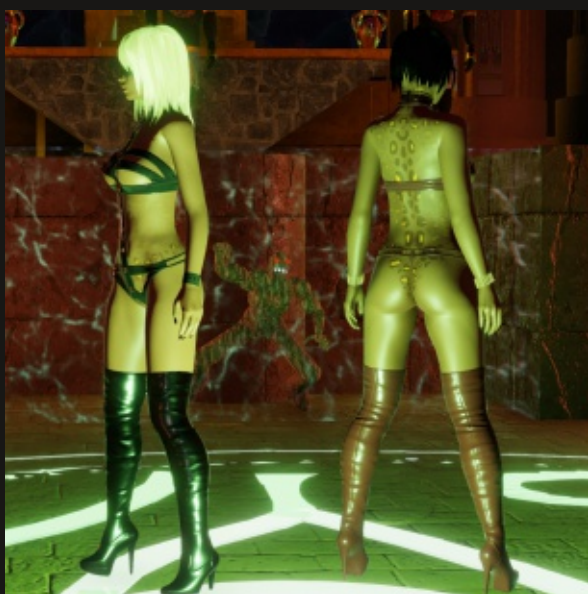

The two Amazons draw their swords and rush forward to the battle arena of the evil mage. Loudly and with one voice they shout at him:

WE HAVE NO FEAR !

PREPARE FOR BATTLE !

PHILOMENA

PRINCESS OF THE AMAZONS

Once in the arena, the Amazons prepare for battle and choose the heavy lance as their weapon in the fight against the undead mummies of Imhotep.

The battle cry "We have no fear" had activated their superpowers. Tiger and Wolf were ready to fight to the death.

PHILOMENA

PRINCESS OF THE AMAZONS

With one last look at the chained Nefertiti, the two Amazons tighten their grip on their weapons and await the monsters' onslaught back to back.

At Imhotep's signal, the undead rush out of their holes and throw themselves at the two warriors with their axes.

After a fierce fight against a dozen of these undead monsters, the last two lie on the ground and are finally killed by Philomena and Deianera.

Awaiting and exhausted from the fight, both stand in the arena and wait for the next opponents. The weapons ready for battle in their fists.

Suddenly Artemis appears in front of the altar of the ANCH and fires bright blue-white lightning bolts at the chains of Nefertiti and the Anubis guards.

Nefertiti's chains shatter and the guards turn to stone...

PHILOMENA

PRINCESS OF THE AMAZONS

When Nefertiti's chains break, she jumps up in a flash, snatches the spear from Aynaet and kills her with a stab to the heart. Like a raging fury, she throws herself at Imhotep and thrusts the spear deep into his chest. With the onset of Nefertiti's attack, the Amazons rush up the stairs to the altar and take out the last two Anubis guards.

Imhotep is defeated and the Amazons have successfully completed the mission for Artemis and the ANCH is again in possession of their goddess. Together with Nefertiti they will return to Alexandria and recover from their exertions before they leave for Themyscira to find out what this demon Steppenwolf is all about.
