## PRINCESS OF THE AMAZONS

The captain introduces himself as Marik of Abukir and invites the women for a drink.

"Ladies, please lay down your weapons. This is a peaceful merchant ship. There is nothing to fear here. You are among friends!"

Philomena and Deianera look at each other questioningly. Finally Philomena nods and rises to put down her weapons.

"I don't trust him, Princess !"

## PRINCESS OF THE AMAZONS

As the two Amazons return to the table, they hear the captain invite Nefertiti and them both to a dinner in his cabin that evening.

Their distrust increases even more....

Deianera and Philomena look at Nefertiti and slowly shake their heads. But Nefertiti is happy about the invitation and the nice change of a boring evening on board the ship.

With an unpleasant feeling, they follow the Captain to his cabin...

## PRINCESS OF THE AMAZONS

Ajax had hidden on the ship and watched everything that happened on deck. He does not trust the captain and his crew at all. The fact that the Amazons laid down their weapons worried him a lot. He secretly sneaks into the captain's cabin to have a closer look in his activities.

## PRINCESS OF THE AMAZONS

Ajax studies the map in the captain's cabin and sees a marker on the island they are heading to. Is this the hidden palace of Imhotep?

But with horror he realizes on the map that this ship is part of a whole pirate fleet.

Ajax hears the captain open the door to the cabin to escort the 3 women to the table for dinner. He quickly sneaks out of the cabin through the side door and returns to his hideout unseen.

He is in deep concern for Philomena and thinks about what he could do....

## PRINCESS OF THE AMAZONS

After a short and friendly toast from the captain, everyone raises their glasses and drinks the wine. Everyone.... except the captain.

A few seconds later, the 3 women become dizzy and fall unconscious from their chairs to the floor.

Only few seconds later, two more pirates enter the cabin and look at the three women, drugged with sleeping pills.

They both look at the captain and wait for orders.

## PRINCESS OF THE AMAZONS

"Take the armor and clothes off these bitches and search them for hidden weapons. Then take them to the upper deck and put them in chains. I will take care of them when they are awake.

We'll have a lot of fun with them before we reach Imhotep's island and get our reward."

## PRINCESS OF THE AMAZONS

*Imhotep had learned of the plans and paid the pirates to intercept and kidnap Nefertiti and the two Amazons from Greece.*

*The captain sits down in front of his bound and helpless prey, grinning with evil anticipation. Imhotep had only ordered him:*

*"You can do whatever you want with them on your ship, but bring them to me alive."*

*to be continued...*
