

Keywords: behavioral health services

Two Problems:

1. Patients often resist needing mental or behavioral health services because of stigmas. They need judgment-free services they can trust.
2. Physicians must be confident that their patients will be supported and treated with compassion and dignity.

Purpose: Expound on our behavioral health services and the attitude in which we deliver those services.

Behavioral Health Services: Meeting Patients Where They Are

Subheadline Content

No one wants to need mental or behavioral health services. Yet, mental health is foundational to individual, family and community wellness. We're here to walk alongside your patients, meeting them where they are and supporting them for success. That's why we offer acute intervention, outpatient support, virtual appointments and community referrals.

Judgment-free behavioral health services

As a caring provider, you need access to empathetic behavioral health services. We diagnose, treat, encourage and promote holistic wellness for your patients. Here are some of the conditions we treat:

- Child and adolescent anxiety and mood disorders
- Eating disorders
- Community mental health concerns
- Autism
- Addiction
- Acute, inpatient mental health conditions
- Suicide risk

We understand that life is challenging. Difficult times often affect an individual's mental and behavioral health. That's why we commit to **providing judgment-free behavioral health services for your patients.**

Your behavioral health team

Your behavioral health team meets patients where they are. We function collectively, so individuals receive the optimal opportunity to overcome psychological conditions.

1. Our **psychiatrists** are medical doctors specializing in mental and behavioral health issues. They can write prescriptions when necessary.
2. Our **psychologists** are counselors providing practical therapy. They aim to equip patients with the tools to become mentally healthy and strong.
3. Our **social workers** access resources to promote success outside the hospital.

With compassion and collaboration, we are here to provide behavioral health services your team can count on.

Why choose us?

Empathy is at the core of all we do. Our staff walk alongside patients, guiding, supporting and facilitating growth and healing. We deliver behavioral health services with confidentiality, convenience and compassion while helping navigate financial coverage.

Compassion

Our behavioral health specialists listen to understand. They practice **empathetic therapy and judgment-free conversations**. Many of your patients do not have a strong support system. They need care and support every step of the way. So, we offer compassionate behavioral health services that help patients achieve a brighter future.

Confidentiality

Trust is foundational for the success of behavioral health services. Patients want to know that medical staff will uphold their right to privacy and dignity. We commit to confidentiality. We only disclose information when legally required in the following situations:

- Possible child or elder abuse
- Reasonable suspicion that the individual may harm themselves or someone else
- Court order

Our facility strives to **promote mental health by building trust**.

Coverage

Many people discount mental and behavioral disorders. Consequently, people presume insurance does not cover behavioral health services. However, when these services are deemed "medically necessary," insurance covers the cost. We are here to help people navigate the challenges of billing their insurance company for mental and behavioral health therapies.

Convenient

Virtual appointments allow patients to receive support from the comfort of their homes. Meeting with a board-certified psychiatrist is easy using a smartphone, tablet or computer. Not only does this save time and money, but it also reduces stress related to in-office doctor visits.

Delivering empathetic behavioral health services

We understand that behavioral health services often come with a stigma. We want to change that. Mental health is foundational to the resilience of our patients, friends, families and communities. That's why we aim to deliver empathetic behavioral health services that support your patient's wellness. To get started, click the "Refer" button.
