

Keywords used: urology services

Problem: Patients want urology care that treats them with dignity and discretion. Physicians need urology services with proven excellence, collaboration and innovation for their patients.

Solution: Expound on our facility's urology capabilities, innovations and patient-first care.

Urology Services with Excellence and Dignity

Subheadline Content

Patients often feel uncomfortable talking about incontinence or erectile dysfunction. Consequently, they avoid much-needed treatment because of embarrassment. Your patients need urology services with dignity. We commit to delivering excellent urology services with compassion, discretion and sensitivity.

Exceptional urology services

When you partner with us, you get **exceptional urology services and a multi-disciplinary team**. Our urologists specialize in diagnosing and treating urinary tract conditions and male reproductive problems. Some urology conditions our team treats are the following:

- Urinary incontinence
- Overactive bladder
- Urinary tract infections (UTIs)
- Kidney stones
- Benign prostate hyperplasia (BPH)
- Erectile dysfunction
- Hematuria
- Urologic cancers, including prostate, bladder, kidney and testicular cancers

We are passionate about collaboration because a team approach produces superior results. That's why we take a multi-disciplinary approach to all our urology services. Regardless of diagnosis, we coordinate care with you, the oncologist, the cardiologist, or other providers to ensure exceptional care for your patients.

Improving results with innovation

More than 50% of men experience benign prostatic hyperplasia (BPH) after the age of 60. For decades, surgeons have used transurethral resection of the prostate (TURP) to treat BPH. However, Aquablation is an innovative, minimally invasive technique that uses robotic technologies to treat BPH. Some of the benefits of using Aquablation are the following:

- Protection of male anatomy

- Conservation of sexual function
- Less resection and procedural time
- High safety ratings
- No need for ionizing radiation
- No thermal damage

Aquablation produces comparable results to TURP with less irreversible complications, like incontinence, erectile dysfunction and ejaculatory ineptitude. **Men often prefer Aquablation because of the improved net benefits.** Our facility is proud to deliver this sought-after surgery to your male patients.

Your urology team

As a conscientious provider, you need urology resources you can count on. Our premier urologists excel in diagnosing and treating urinary tract and male reproductive conditions. Our physicians focus on personalized interventions while working collaboratively to produce excellent results.

We are passionate about creating a patient-first environment. That's why we prioritize listening to understand. We want to understand the problem and how the condition affects your patient's life. **With a holistic mindset, our urologists treat not only the problem but the person.**

Why choose us?

We prioritize patient-centered care. Your patients need a urology team **committed to listening, learning and leading them to a better life without so many genitourinary interruptions.** That's why we advance our techniques while focusing on person-first communication and care.

Your patients are tired of endless bathroom breaks and subpar sexual health. We are here to help preserve their dignity and way of life.

Providing advanced urology services in your neighborhood

Many people feel embarrassed to talk about problems they experience in the bathroom and bed. That's why so many postpone treatment. With **empathy at our core, we aim to listen, understand and respond to concerns with dignity and discretion.**

From curing urinary conditions to restoring sexual health, our superior urology team strives to improve your patient's life by addressing annoying genitourinary conditions.
