# Linear Ceilings & Walls

Our Linear wood systems are available in two types, Tongue and Groove (T&G) and Reveal. Linear T&G planks come in standard widths of 4" or 5" face and have three available edge options. Linear Reveal planks come in standard modules of 4" or 6" and have three available reveal widths. Linear Reveal includes either a felt or ABS plastic filler strip to conceal the hardware and plenum. For project requiring acoustical absorption, acoustical backer may be installed above. Perimeter trim options are also available. Attachment clips easily snap to 15/16" HD T-bar grid. Direct attach clips can be used to install directly onto walls and ceilings.

## FEATURES

### APPEARANCE & COLOR

Available in solid or wood veneer in the species shown below\*  
 Linear T&G is available in three edge options: V-Groove, Flat V-Groove, and Butt Joint
