Tiles and 1" Drop Tiles

# Be Bold. Not Loud.

TAKE YOUR CEILING TO NEW HEIGHTS WITH DESIGNER ACOUSTIC TILES

**Qwel**<sup>TM</sup>

## Every space deserves to be elevated

Qwel designer acoustic tiles make architectural PET solutions more attainable with options that make a statement and naturally manage sound. It's the right combination of bold style and deep calm to welcome people in while fostering productivity and wellbeing.

Thoughtfully made of sustainable PET fibers and recycled materials, Qwel ceiling tiles are especially eco-friendly. And because they're easy to install, durable and safe, they'll make an impression that lasts.

Featuring: Deep Dish Tiles  
in Black with Light Gray

### Visualize and Design

Download files for finished looking layouts.

### Custom Solution

More colors, shapes and sizes available via special order.

Featuring: Linear Wave Tiles in White

DESIGNER ACOUSTIC TILES

# Ceiling Product Lineup

Molded shapes enhance all of the physical benefits of non-woven PET fiber construction with interesting three-dimensional visuals. Some shapes provide repeating patterns. Other options purposely build geometry across multiple tiles.

Flat and 1/4" drop tiles are easily cut to shape in order to outline the room or accommodate corners. This allows for a functional surround that can double as an aesthetically-pleasing frame for interior molded tiles or for clearance around ceiling-mounted fixtures.
