

Cece (front) and Fiona are best friends.

Cece was rescued from a hoarding situation, tied to a post in the back of the garage covered in burrs. She came to us with a very damaged untreated left hoof. She literally walked on the front of her hoof because of what we believe was ligament damage.

Fiona came from a pony ride facility. She was blind in her left eye and didn't mind the weight on her back but was spooky as she couldn't tell when the children were approaching her to get on her.
