

**Welcome to the 2026 Humboldt County 5-8 Track and Field season.** This season we are excited to be able to continue using the timing system via Pebble Beach Timing for two of our league meets– Fortuna and McKinleyville. The Cal Poly Humboldt meet will not be using the timing system– athletes are required to have “event finishing tags” for each event they participate in. The April 30th Del Norte County meet, timed by Pebble Beach Timing, is open to Humboldt County runners in 6th - 8th grades. **Online registration via [Athletic.net](https://athletic.net) is required** for all meets utilizing the timing system. **Registration MUST be completed by the stated registration deadlines. There will not be late registration for meets utilizing the timing system.** We have tutorials available on the HRRAY website to ensure accessing [Athletic.net](https://athletic.net) is seamless. [Athletic.net Track Tutorial PDF Version](#) [Athletic.net Track Tutorial MP4 Version](#) There are athlete entry fees for meets utilizing the timing system. Liability waivers are required for the CPH and McKinleyville meets.

**As a reminder, our league rule is:**

1. Students who attend a school that has a track and field program **MUST** compete with their school team, all other students may compete as unattached athletes. **Students must either compete as a student-athlete from their school of enrollment or as an unattached athlete.** Athletes are limited to a maximum of four events. Teams are limited to four entries per gender-grade for all events except relays, relays are limited to one entry per gender-grade. Athletes may compete in a grade level above, not below. Students who run unattached, but attend a school that has a running program will be disqualified. Students who compete as an athlete from a school that they are not enrolled in will be disqualified. Students and programs who are not adhering to league rules may be disqualified and barred from future competitions.

**GENERAL EXPECTATIONS:** Coaches/supervising adults are responsible for supervising and managing their athletes and spectators. Stay in designated areas. Please be respectful of all the volunteers including the meet directors (who are volunteers), participants, spectators, timing company, and the spaces that we are in. Do not ask for results. Results can be viewed on **ATHLETIC.NET** and the **HRRAY** website. [hrray.org](https://hrray.org)
