

Quick Start Strategies

(Teacher Facing)

1

Run one Microlab with an easy-win round.

Establish groups of 3 with numbered heads.

Ask a series of 3 very easy **questions** to allow everyone a strong answer.

2

Provide stems and ready signals (QSSSA).

Provide ready **signals** and sentence **stems** for each question.

Share during the microlab rounds.

3

Close the loop with whole-class reflection.

Use reflection to complete the **assess** step.

Try layering a because, but, so sentence stem.
