

Inflatables (Bounce Houses)

1. Require the rental company providing the inflatable to **provide proof of insurance**.
2. **Before setting up the inflatable, check its condition** to make sure there are no rips or holes.
3. When setting up the inflatable, choose a flat area and place a tarp on the ground to **protect the bottom** against rips or holes.
4. The inflatable should be **fully inflated** and not sagging; this will increase the likelihood that children will not land on each other.
5. Only children of **similar sizes and ages** should use the inflatable at the same time.
6. **Limit the number of children** using the inflatable at any one time.
7. Remove children who are **tired** and therefore more likely to be injured.
8. Provide **adult supervision** (two or more adults are preferable) at all times; place an emphasis on avoiding rough play.

I/We agree to abide by requirements as set forth above _____
