Small issues with the show

Teams in when not supposed to go

Conversation need to happen with the new judges/gate people of expectations and what they need to track in that position so that we can help avoid running the wrong team and or skipping teams

Lesson learned

Team that got to rerun in penning

The rerun was done as the rule book stated

Should have kept the herd in the arena until we determined what the issue is

How to collect monies that are not from Members for raffle tickets and or other items if necessary

Venmo

PayPal

April will be selling saddle raffle tickets at the Thurston County Fair

Are there any other places that we would like to sell them?

No future cuttings on the books for T90

T90 is happy with us even though we are one of the smaller club/ bring them in less money. We have gotten rave reviews that we clean up after ourselves and leave the place better than we found it.
