

BBQ at the Walmer Castle

Our new community centre, Walmer Castle

Sunday the 21 August 2016 became a day of celebration for our community; it was a step toward a brighter future as we organised the first function at the *Walmer Castle*, our new community centre. It was bought on the 28th of March. The purchase was made possible because of the generosity of Jason and Daphne Mermikides, who donated almost two thirds of the purchase price.

This was a day when many people from the Greek Community of Margate and the local Westgate Community came together to express their opinion and share their vision for the future for this landmark of a building.

A BBQ was organised with the food supplied free of charge by the Greek community. The local Westgate Community turned up in their hundreds and helped make the function an outstanding success. Most people expressed relief that the venue was to be turned into a Community Centre and would not be lost to the Community forever.

Volunteers from the Greek Orthodox community of Margate cooking and serving delicious souvlaki.
